January 27, 2014

Honorable Mayor and City Commissioners:

Development of a multi-year financial forecast is critical to maintaining fiscal stability. The process of assessing long-term financial sustainability can yield significant benefits, primarily through the potential to identify negative financial trends early enough to provide policy makers the opportunity to make necessary adjustments to avoid fiscal distress.

This forecast is intended to give an order of magnitude perspective on the fiscal health of the General Fund, and the funds that generate significant fiscal impacts affecting the General Fund over the upcoming five year period. It was produced by applying the best information available on revenues and expenditures at the time of its preparation, including analysis of historical trends and discussions with department heads regarding the administration of their programs over the forecast period. At the core of the projections is a set of assumptions that will be detailed in the individual revenues and expenditures section of this document.

#### GENERAL FUND EXECUTIVE SUMMARY

Unfortunately the now tired refrain from previous forecasts of slowing revenue growth is once again playing a prominent role in the FY15 – FY19 projections. As the table indicates, estimated annual growth over the next five years of 2.22% is slightly greater than that of the previous five year period, and just more than a third of the rate for the five year period prior to that. Significantly, these two prior five year periods encompass the Great Recession.

| Average Annual General Fund Revenue Growth |              |
|--|--------------|
| FY04 - FY08 actual                         | 5.57%        |
| FY09 - FY13 actual                         | 1.60%        |
| <b>FY15 - FY19 forecast</b>                | <b>2.22%</b> |
| 10 year trend: FY10 - FY19                 | 2.18%        |
| 15 year trend: FY05 - FY19                 | 2.81%        |

Much of the flattening in the slope of revenue growth over the previous decade is the result of a combination of legislative actions and of course worsening general economic conditions. A third factor is contributing heavily to the continuing decline in revenue growth over the upcoming forecast period. General Fund revenues have been historically poorly diversified; this lack of diversification, and the resulting reliance on the transfer from Gainesville Regional Utilities for almost a third of total revenue, has been a principal element cited by rating agencies as exerting downward pressure on General Government's bond ratings. Over the FY15 – FY19 forecast period this concern is coming to fruition as

financial pressure on the utility is precipitating a material shift downward in the GFT, with a corresponding negative effect on total revenue growth.

This long-term declining rate of revenue growth has necessitated expenditure control measures to manage the General Fund's overall financial health. Since 2008, more than \$15 million in budgetary reductions have been implemented, including the elimination of more than 81 full-time equivalent positions. The result is that expenditure growth over the past five years has been cut to less than a quarter of the rate of growth experienced in the five years prior.

While expenditure control measures will remain in place over the forecast period, there are several issues that will exert some upward pressure on expense:

- A number of operating expenditure items formerly funded by CRA will transition to the General Fund over the forecast period
- Operating set-aside monies from the Wild Spaces Public Places initiative will be fully expended during the next five years, with the on-going expenditures picked up by the General Fund, and
- The earnings assumptions in the City's two defined benefit pension plans are scheduled to be drawn down from 8.5% to 7.9% over the forecast period, which will significantly increase City contributions to these plans.

Even with these factors driving up General Fund expenditures, the average annual expenditure growth over the forecast period is only 2.61%.

What follows are the financial forecasts for the most significant General Government funds. This includes a detailed analysis of the primary revenue sources and expenditure categories that make up the General Fund budget. It is our hope that this information will be of assistance in providing a financial framework for addressing the issues that the City faces over the coming years.

Respectfully submitted,

A handwritten signature in blue ink that reads "Russ Blackburn". The signature is fluid and cursive, with a long horizontal line extending from the end of the last name.

Russ Blackburn

City Manager

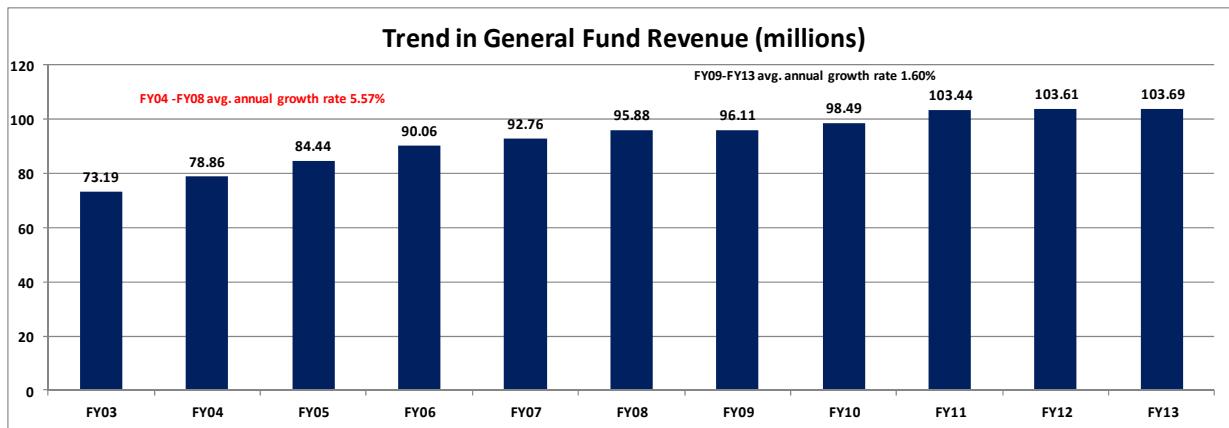

## Five Year Financial Forecast FY15 – FY19

---

### **GENERAL FUND**

#### **REVENUES**

Growth in General Fund revenues has slowed considerably over the second half of the past decade. As the graph below demonstrates, average annual revenue growth from FY09 through FY13 was just more than a quarter of the rate experienced over the previous five year period. This FY09 through FY13 growth rate includes the introduction of a new \$5.1 million revenue stream, the Fire Assessment, in FY11. Controlling for this levy of the Fire Assessment reduces the average annual growth rate over the past five years to just over one-half of one percent (.57%), and from FY11 through FY13 there was little discernible growth in total revenue.

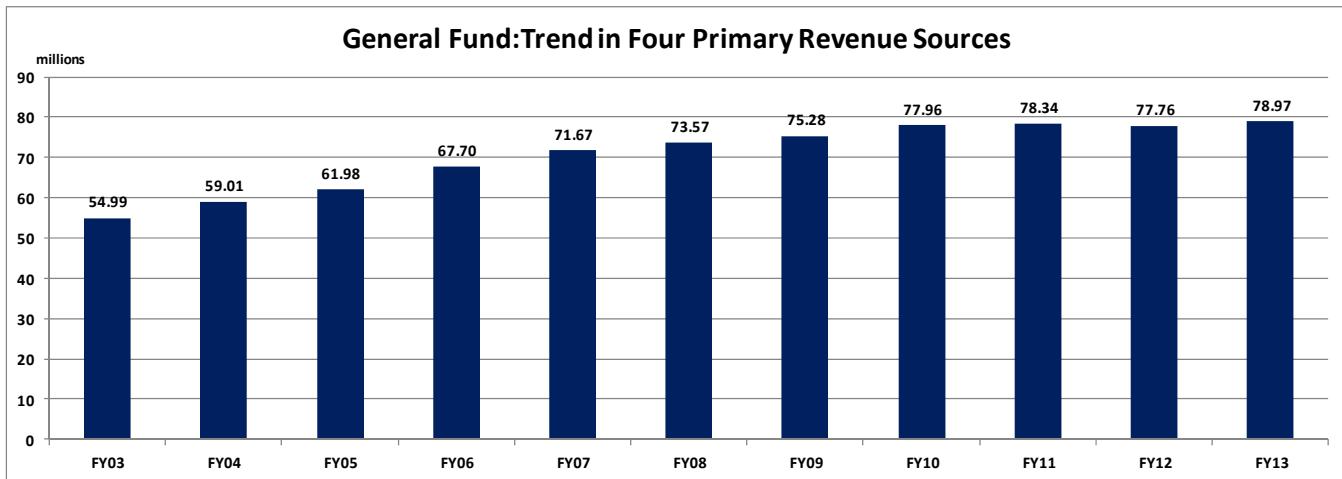

Four revenue sources have traditionally made up approximately 75% - 80% of total General Fund revenues:

- Utility transfer
- Property tax
- Utility tax
- Intergovernmental revenues (half cent sales tax and state revenue sharing)

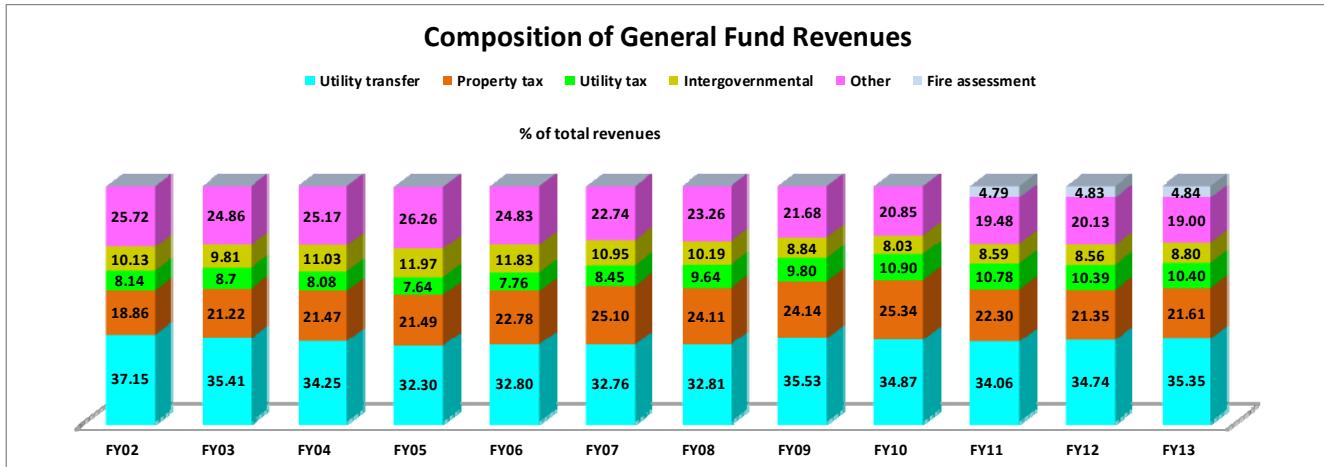

## Five Year Financial Forecast FY15 – FY19

---

As the preceding chart demonstrates, the combined growth in these significant revenue sources has slowed considerably over the past five years. The average annual growth in these revenues has declined from just over 6% from FY04–FY08 to under 1.5% from FY09–FY13.

Other than the introduction of the Fire Assessment in FY11, the composition of General Fund revenues has remained largely unchanged in recent years.

There is a significant issue that does not auger well for General Fund revenues over the upcoming forecast period. There is financial and rate pressure facing GRU which may require consideration of fundamental revisions in the General Fund transfer formula. A potential material reduction in the level of the transfer, which makes up more than a third of General Fund revenue, will result in a considerable reduction in overall General Fund revenue growth. This impact will play a pivotal role in our financial planning models over the next five years.

## Five Year Financial Forecast FY15 – FY19

Following is a detailed analysis of the past ten year trends in major General Fund revenue sources and the outlook for these revenues over the period FY15 – FY19.

### Utility Transfer

- Single largest General Fund revenue source
- Historically approximately 35% of General Fund revenue

### Key Assumptions FY15 - FY19

- Base equal to FY14 transfer as generated under previous formula
- Growth at 1.5% per year
- Less property tax revenue received related to biomass plant

#### Background

The Utility Transfer to the General Fund (GFT) is an important piece of both General Government and GRU finances. The intention of the transfer is to serve as a proxy for what GRU would pay if it were an investor owned utility. The proxy consists of:

- Property tax
- Franchise fees, and
- Return on investments to shareholders

For the past quarter century, the GFT has been the single largest component of General Fund revenues. Since the inception of the formula in 1987, water, wastewater and gas transfers have been based on a percentage of system revenues. The same was true of the electric system until 2000, when in order to deal with concerns over pending electric deregulation, the basis was changed to a guaranteed percentage of growth tied to retail kilowatt hours delivered. The premise was that this change would more closely link the electric system transfer to system financial performance.

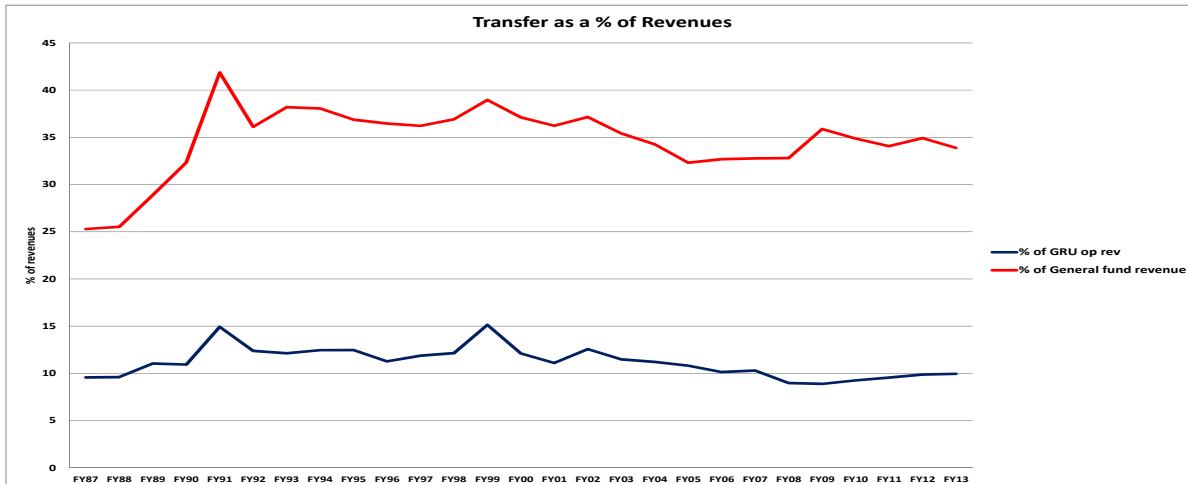

In 2010 both General Government and GRU were dealing with economic issues in the midst of the recession, and the decision was made to suspend the existing transfer methodology in favor of a four year agreement with fixed dollar transfers per year for each of the four years.

| <b>FY11 - FY14 GFT AGREEMENT</b> |                   |
|----------------------------------|-------------------|
| <b>FY11</b>                      | <b>35,154,463</b> |
| <b>FY12</b>                      | <b>36,222,989</b> |
| <b>FY13</b>                      | <b>36,666,551</b> |
| <b>FY14</b>                      | <b>38,101,425</b> |

This change would provide predictability and stability to both groups. In addition, General Government would have an element of guaranteed growth, and GRU would gain the flexibility to provide the transfer from any system which had the financial ability to pay. An additional tenet of the agreement was that any difference in excess of \$500,000 between the fixed dollar amount and the transfer as it would have been calculated under the previous methodology would be shared between General Government and GRU.

## Five Year Financial Forecast FY15 – FY19

The various revenue based transfer algorithms have produced a consistency in the GFT level over the quarter-century plus of their existence. As budgets have grown the GFT has increased substantially in terms of absolute dollars since 1987, but as a percentage of General Fund and GRU revenues the GFT has remained relatively constant.

The GFT level as it exists today is not out of line with GRU's Florida municipally owned/affiliated peers. As outlined in the chart below, the **U.S Public Power Peer Study**, prepared in June of 2013 by FitchRatings, places GRU between OUC and JEA in terms of the transfer as a percentage of operating revenues, and modestly higher than Tallahassee. When considering these figures, the difference in the taxable percentage of property profiles for these cities should be taken into consideration.

| FitchRatings<br>U.S. Public Power Peer Study<br>June 2013 (Based on FY12 Results) |               |                  |  |
|---|---------------|------------------|--|
|   |               | Retail Customers | Transfers as a % of Operating Revenues |
|   | Revenues      |                  |  |
| OUC   | 854,383,000   | 227,893          | 12.0                                   |
| Gainesville   | 354,624,000   | 92,641           | 10.2                                   |
| JEA   | 1,358,090,000 | 422,314          | 9.8                                    |
| Tallahassee   | 312,722,000   | 108,317          | 8.6                                    |
| Lakeland Electric   | 290,337,000   | 120,771          | 8.3                                    |
| Kissimmee Utility Authority   | 173,082,000   | 64,007           | 5.3                                    |

The next two tables demonstrate how the FY12 GFT stacked up against several different peer sets. This first comparison ranks the GRU GFT against all municipal utilities in the FitchRatings study with a bond rating equal to GRU's AA-. This grouping was used in the Chamber of Commerce Energy Study, and of the 27 utilities in this peer set, GRU's GFT as a percentage of utility revenues is second highest.

## Five Year Financial Forecast FY15 – FY19

---

Again, GRU's GFT is second highest in this comparison, below OUC and slightly above JEA.

The trend in the GFT over recent years is pictured below. The average annual growth over this fourteen year period is 3.59%. This time frame incorporates ten years of the previous transfer methodology (FY01 through FY10 with an average annual growth rate of 3.97%) and four years of the fixed dollar agreement (FY11- FY14 with an average annual growth rate of 2.63%).

### Forecast

As stated above, FY14 was the last year of the four year fixed dollar transfer agreement. Going forward the goal is to determine a transfer level which would be consistent with the philosophy of providing a proxy for what an investor-owned utility would pay, assisting the utility in maintaining a competitive rate structure, and providing General Government the resources necessary to maintain service delivery levels.

The primary concern voiced by the Utility regarding the transfer over recent years was that guaranteed growth rates in the electric system transfers had outstripped actual unit sales growth, and the potential for this pattern to continue could impair the financial status of the utility. The following table details the contrast between the number of times a guaranteed 3% growth factor was applied to the electric system transfer versus the number of times the electric system actually achieved a rolling 3% retail KwH delivered unit sales increase.

## Five Year Financial Forecast FY15 – FY19

| <b>GFT TREND: RETAIL KWH DELIVERED BASIS FISCAL YEARS 2001 - 2010</b> |                             |                                      |   |                             |

| 2004  | 1,824.4                     | 1.47%                                | 2.10%   | 3.00%                       |
| 2005  | 1,832.3                     | 0.43%                                | 2.33%   | 3.00%                       |
| 2006  | 1,882.8                     | 2.76%                                | 1.55%   | 3.00%                       |
| 2007  | 1,870.8                     | -0.64%                               | 0.85%   | 3.00%                       |
| 2008  | 1,819.9                     | -2.72%                               | -0.20%  | N/A                         |
| 2009  | 1,770.7                     | -2.70%                               | -2.02%  | N/A                         |
| 2010  | 1,851.1                     | 4.54%                                | -0.29%  | N/A                         |

As the table demonstrates, over the decade in which the retail Kwh model was applicable, in seven of those years the three year rolling average of retail Kwh delivered was positive, triggering a 3% increase in the base of the Electric System transfer to the General Fund. However, in only one of those seven years (2003), did this three year rolling average equal or surpass the 3% level of the base increase.

Based on this concern, GRU's interest was in developing a methodology that would more closely mirror sales growth. GRU's latest projection for system unit sales growth is as follows:

| <b>PROJECTED ANNUAL % GROWTH IN UNITS DELIVERED BY SYSTEM</b> |                 |              |                   |            |
|---|-----------------|--------------|-------------------|------------|
|   | <b>Electric</b> | <b>Water</b> | <b>Wastewater</b> | <b>Gas</b> |
| 2015  | 0.44%           | 0.84%        | 0.82%             | 0.72%      |
| 2016  | 0.33%           | 0.85%        | 0.83%             | 0.80%      |
| 2017  | 0.31%           | 0.84%        | 0.81%             | 0.73%      |
| 2018  | 0.30%           | 0.85%        | 0.82%             | 0.63%      |
| 2019  | 0.32%           | 0.86%        | 0.82%             | 0.58%      |
| 2020  | 0.32%           | 0.85%        | 0.80%             | 0.54%      |
| 2021  | 0.32%           | 0.85%        | 0.80%             | 0.47%      |
| 2022  | 0.37%           | 0.86%        | 0.80%             | 0.52%      |

As shown in the table none of the systems have any year in which growth exceeds .86%. From General Government's standpoint, annual growth of less than one percent in a revenue source which comprises more than a third of total General Fund revenue would impair the potential for revenues to keep pace with the cost of service delivery. Based on the concerns of both parties, a consensus was reached on the formula for the forecast period of:

- A new base equal to the FY14 GFT level that would have been produced under the previous formula methodology.
- This base will grow each year by 1.5%.
- The property tax revenue that would accrue to the city of Gainesville from the biomass plant property will be deducted from the GFT amount.

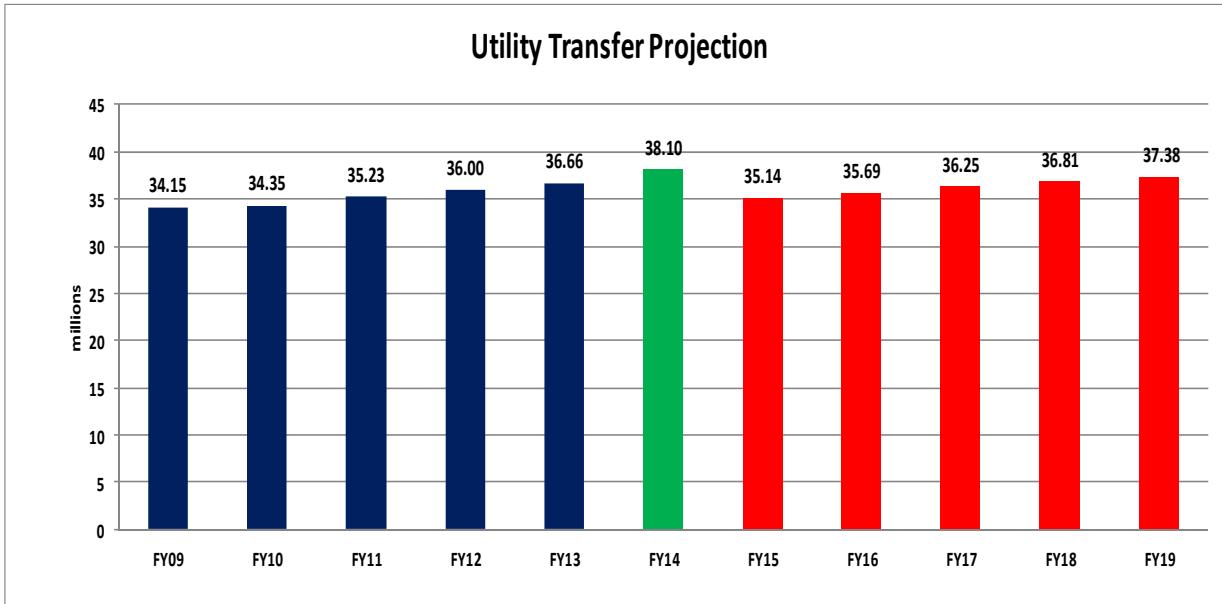

The following table outlines the numbers that result from this proposed methodology

## Five Year Financial Forecast FY15 – FY19

| GENERAL FUND TRANSFER PROPOSAL     |              |                                    |                                |             |             |             |                          |

\*Reduction in GFT equal to actual City of Gainesville property tax revenue from biomass plant each year; \$1.4M is projected figure

Application of this formula results in a GFT forecast as outlined below. GFT will fall 7.8% between FY14 and FY15 and then grow at approximately 1.56% per year throughout the balance of the forecast period.

The following graph and table contrasts the City GFT proposal with the target caps proposed in the recent Chamber of Commerce Energy Study Group report for FY15 through FY19.

## Five Year Financial Forecast FY15 – FY19

| GENERAL FUND TRANSFER FY15 - FY19 |               |                  |              |                  |               |
|-----------------------------------|---------------|------------------|--------------|------------------|---------------|
|                                   | City proposal |                  | Chamber caps |                  | \$ Difference |
|                                   | \$            | % of GRU revenue | \$           | % of GRU revenue |               |
| FY15                              | 35,142,425    | 8.03             | 43,763,617   | 10.00            | 8,621,192     |
| FY16                              | 35,690,561    | 7.89             | 44,128,165   | 9.75             | 8,437,604     |
| FY17                              | 36,246,920    | 7.80             | 44,134,793   | 9.50             | 7,887,873     |
| FY18                              | 36,811,623    | 7.77             | 43,845,596   | 9.25             | 7,033,973     |
| FY19                              | 37,384,798    | 7.80             | 43,150,516   | 9.00             | 5,765,718     |
|                                   | 181,276,327   |                  | 219,022,687  |                  | 37,746,360    |

The following tables demonstrate how the proposed GFT formula would change GRU's GFT ranking in the peer sets presented above.

| FitchRatings<br>U.S. Public Power Peer Study: Transfer as a % of Revenues<br>Florida Peer Group |                  |                     |                             |
|---|------------------|---------------------|-----------------------------|
|   | Retail Customers | Revenues (Millions) | Transfer as a % of revenues |
| Orlando Utilities Commission, FL  | 227,893          | 854,383             | 12.0                        |
| GRU 12  | 92,461           | 354,624             | 10.2                        |
| JEA - Electric System & Bulk Power Supply System, FL  | 422,314          | 1,358,090           | 9.8                         |
| Tallahassee Electric, FL  | 108,317          | 312,722             | 8.6                         |
| Lakeland Electric, FL   | 120,771          | 290,337             | 8.3                         |
| GRU 15  | 92,461           | 437,636             | 8.0                         |
| Kissimmee Utility Authority, FL   | 64,007           | 173,082             | 5.3                         |

In this first peer group the proposed formula would move GRU from the second highest to the second lowest.

| New Smyrna Utilities Authority, FL                             | (not included in FitchRatings survey) |                        |                                |

In this final comparison against Florida utility authorities, the GFT proposal moves GRU from second highest to third highest.

## Five Year Financial Forecast FY15 – FY19

### Property Tax

- Lowest percentage of property on tax roll in Florida
- Four consecutive years of decline in taxable value (12.7% reduction from peak in tax year 2009/fiscal year 2010)

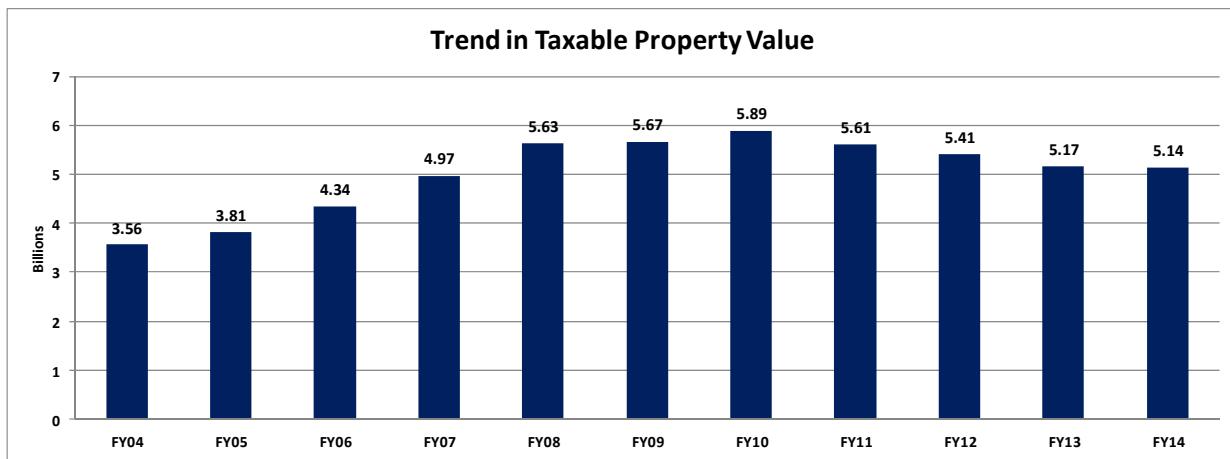

### Key Assumptions FY15 - FY19

- Tax base growth projection based on December 2013 State of Florida Ad Valorem Revenue Estimating Conference report for Alachua County
- Millage rate remains at 4.5780 throughout forecast period
- Includes projected biomass plant property tax revenue @ \$1.4M

#### Background

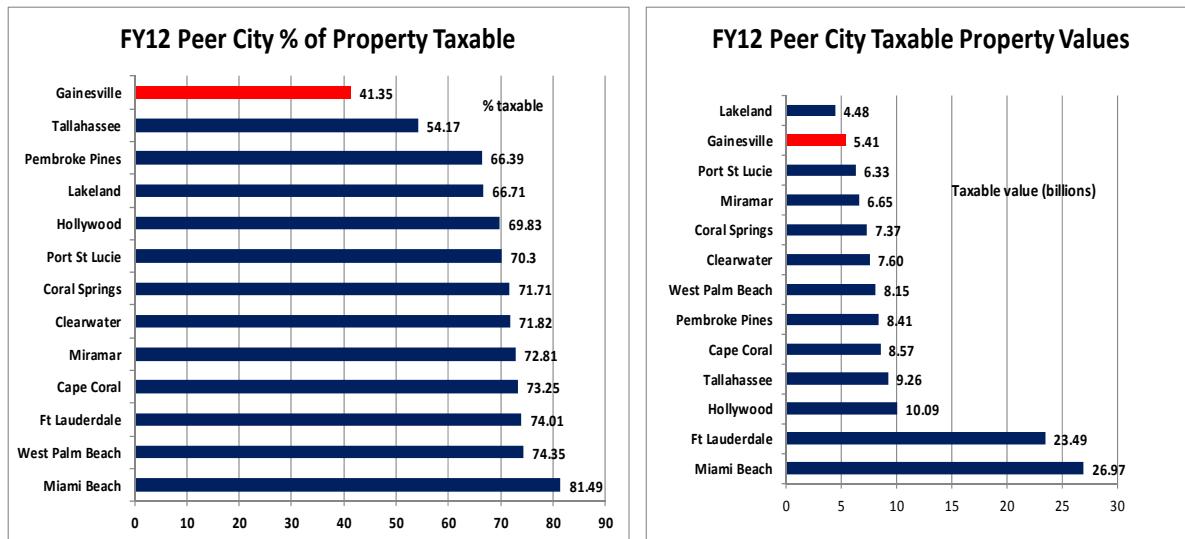

Recent years have marked a significant departure from historical trends in the City of Gainesville's ad valorem or property tax revenue. The recession and recent legislative actions have combined to impact both the City's tax base and its property tax revenue stream.

The graph below demonstrates the trend in Gainesville's taxable property value. Since a peak in FY10, we have experienced four consecutive years of decline, falling from \$5.89 billion to \$5.14 billion, or 12.7%. In FY12, the \$5.41 billion figure was second lowest relative to our Florida peer cities.

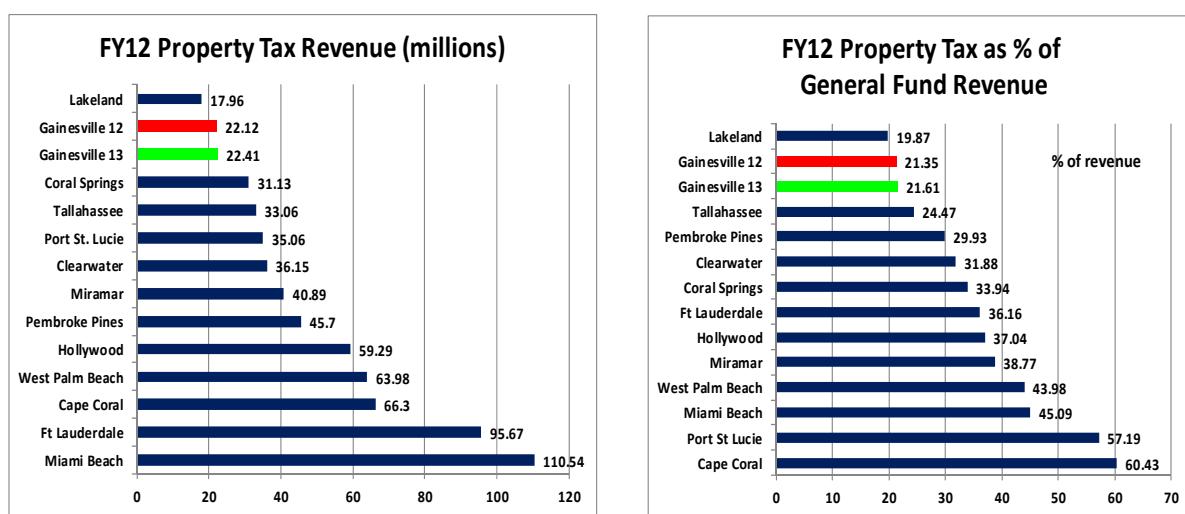

## Five Year Financial Forecast FY15 – FY19

One of the factors playing a role in Gainesville's tax base is the large proportion of property within the corporate limits that is not on the tax roll. At 41.35%, Gainesville's percentage of taxable property is by far the lowest among our peers.

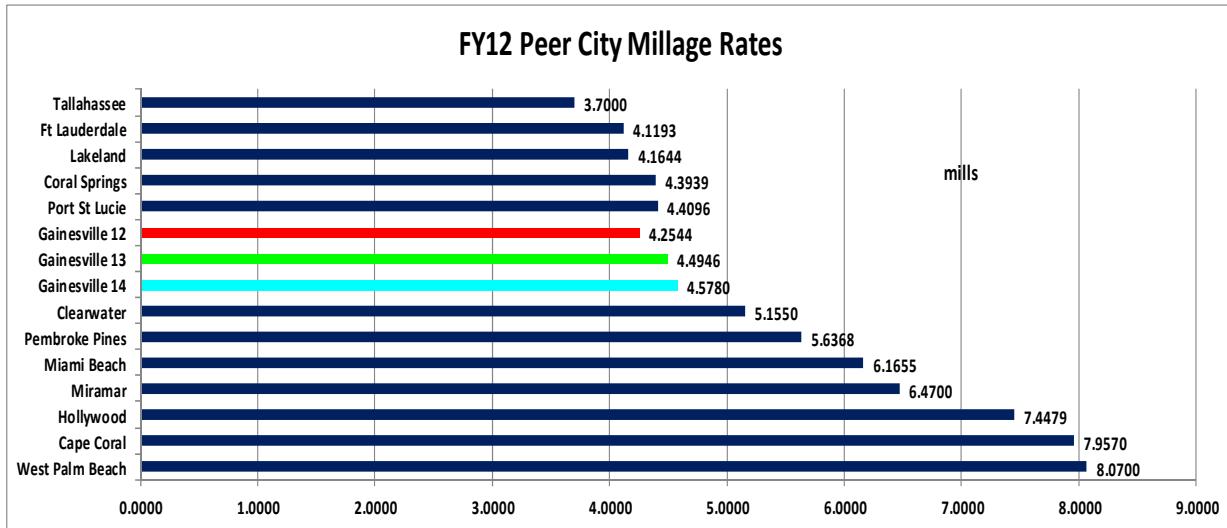

Historically property tax revenue, while not playing as important a role in our revenue composition as in other municipalities in the state of Florida, has been Gainesville's second largest revenue source, contributing between 19% and 26% of our revenue over the past decade. In FY12 property tax revenue was \$22.12 million and made up 21.35% of General Fund revenue. As shown in the graphs below, these figures were second lowest among our Florida peers.

## Five Year Financial Forecast FY15 – FY19

---

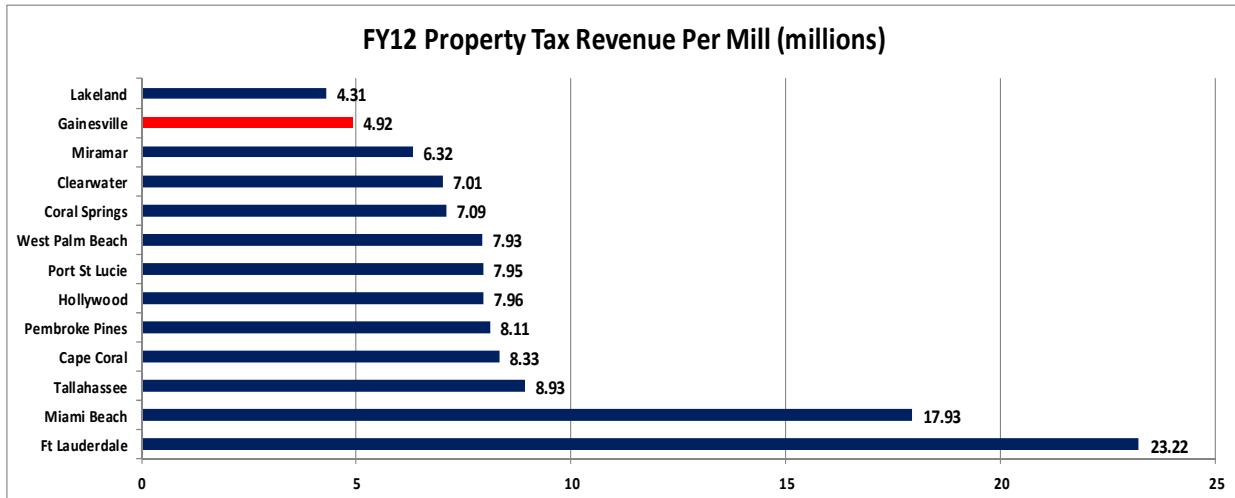

Generation of property tax revenue is a function of two variables: the taxable property base and the millage rate which is applied against that base. In FY12, Gainesville's millage rate was the sixth lowest among our peers.

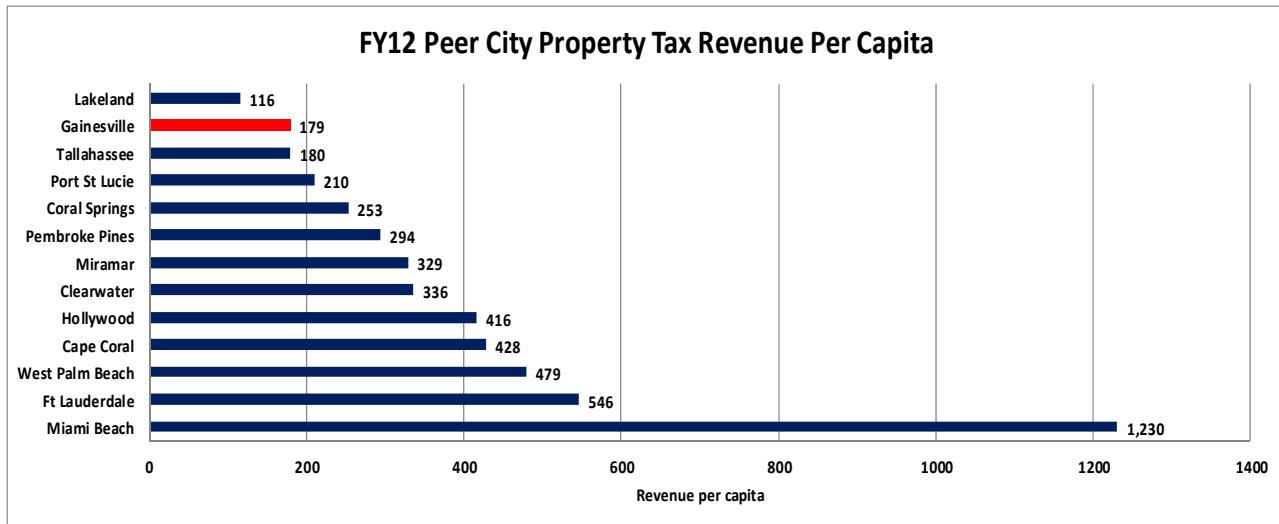

Not surprisingly this combination of a comparatively small tax base and low millage rate results in the fact that revenue generation through property tax is relatively inefficient as measured against our counterparts. This is illustrated by the graph below which measures Gainesville's property tax revenue recognized per mill levied.

## Five Year Financial Forecast FY15 – FY19

---

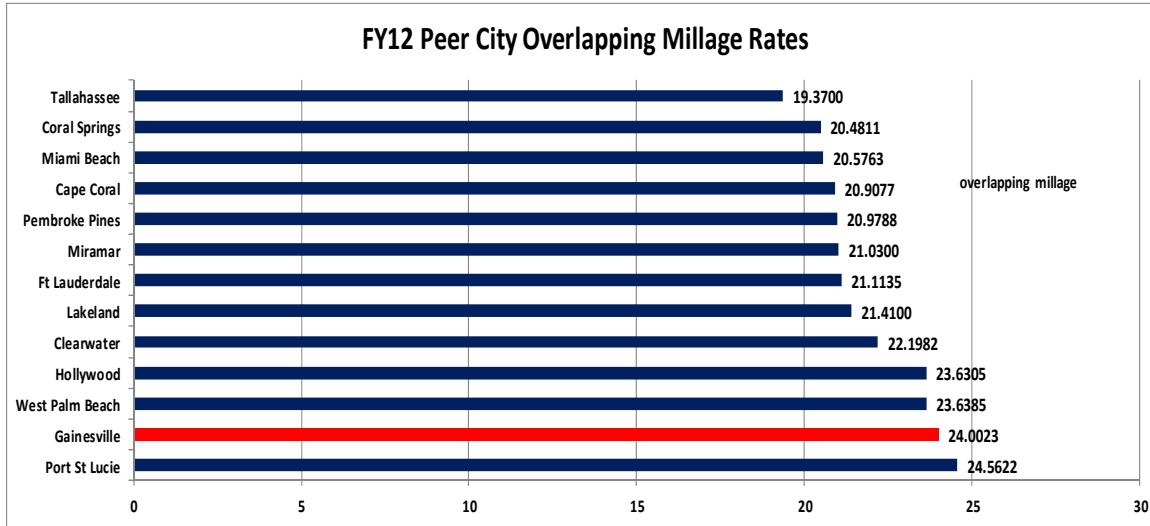

These factors combine to produce a property tax revenue per capita for Gainesville of only \$179, which ranks second lowest among our peers.

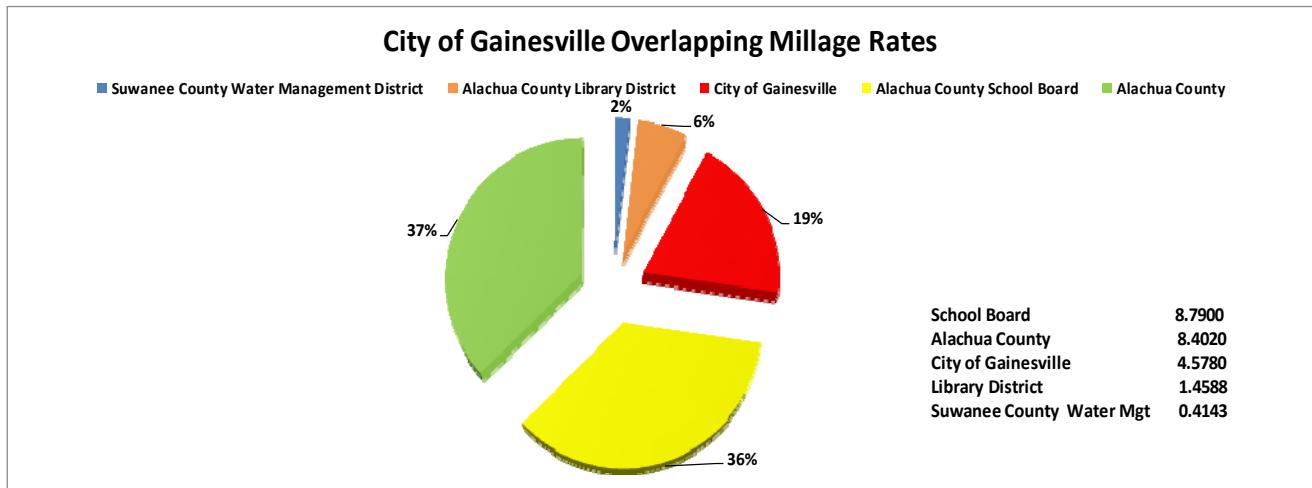

It is frequently referenced that Alachua County is one of the most heavily taxed counties in Florida. The graph below confirms that Gainesville's overlapping millage rate is high relative to our peers.

## Five Year Financial Forecast FY15 – FY19

It should be noted that in FY13 the City of Gainesville, with a millage rate of 4.5780, contributes only 19.4% of this total overlapping rate.

### Forecast

As a basis for projecting future property tax revenue, we are utilizing the forecast for taxable base growth promulgated by the State of Florida Ad Valorem Revenue Estimating Conference for Alachua County. Applied against these tax base changes we are assuming that the current millage rate of 4.5780 mills will remain in effect throughout the forecast period. In addition, \$1.4M in

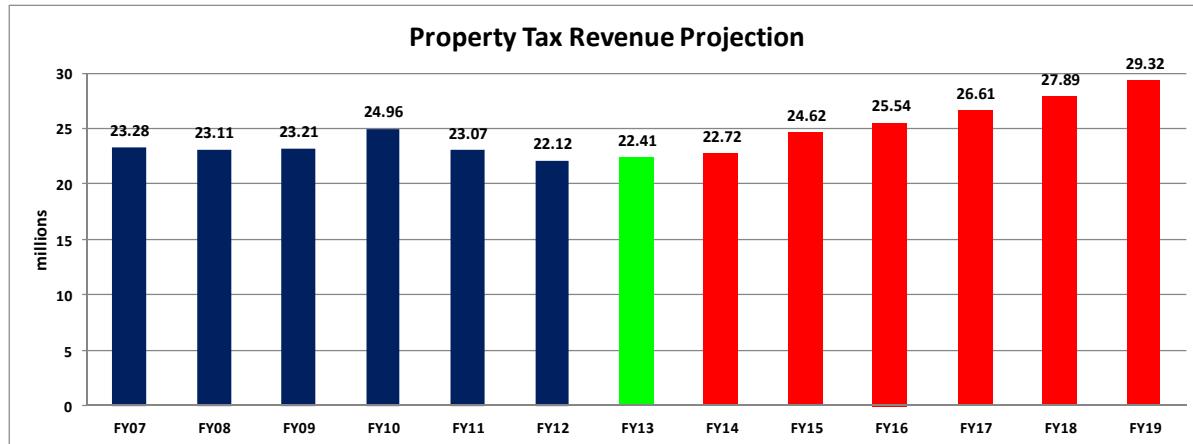

| ALACHUA COUNTY TAXABLE VALUE<br>PER STATE AD VALOREM ESTIMATING CONFERENCE |                          |
|--|--------------------------|
| Fiscal year  | % Growth in Taxable Base |
| FY15   | 2.20%                    |
| FY16   | 4.00%                    |
| FY17   | 4.40%                    |
| FY18   | 5.10%                    |
| FY19   | 5.40%                    |

## Five Year Financial Forecast FY15 – FY19

---

projected revenue from the biomass plant property has been included in the projection as per the provisions of the GFT formula.

These assumptions yield the following forecast for property tax revenue over the FY15 – FY19 forecast period.

## Utility Tax

- Tax levied on electric, water, and natural gas customers inside the corporate limits
- Tax level subject to structure of rate changes: base rates vs fuel

## Key Assumptions FY15 - FY19

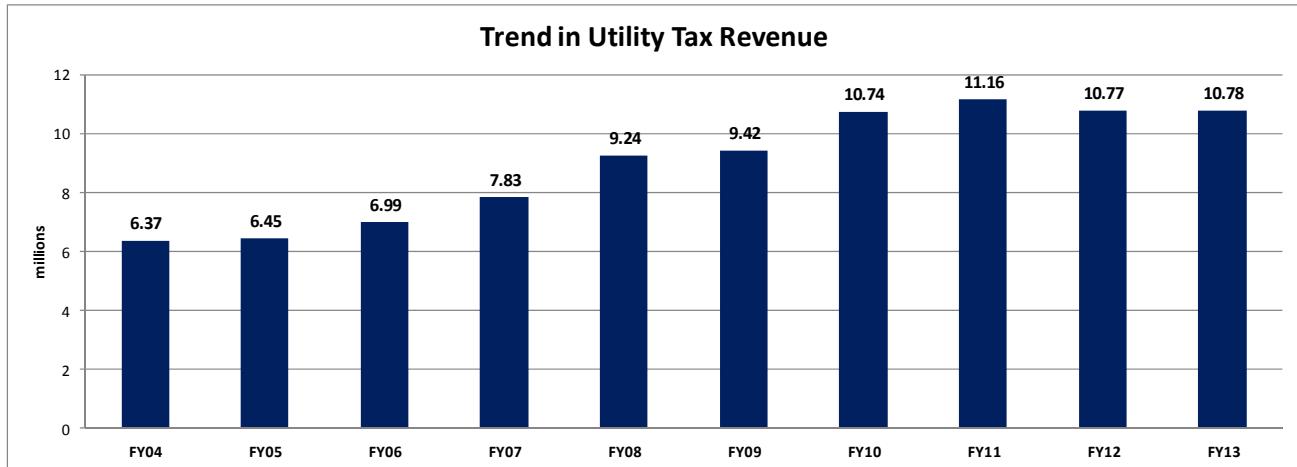

- Nominal customer and consumption changes
- Rate adjustments per GRU staff projections

### Background

Utility tax revenues are generated through taxes levied on electric, water, and natural gas utility customers which reside within the City's corporate limits. As the chart below demonstrates, utility taxes grew an average of just under 10% annually over the period FY07 through FY11, but have declined in the two years since.

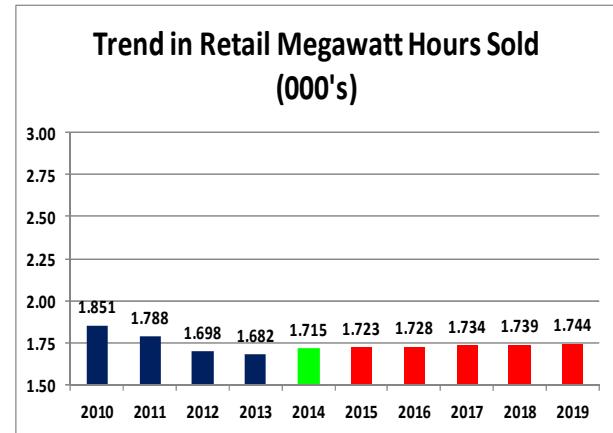

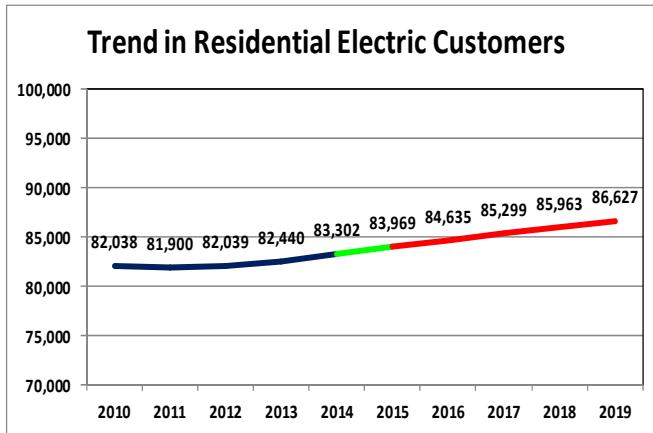

## Five Year Financial Forecast FY15 – FY19

---

### Forecast

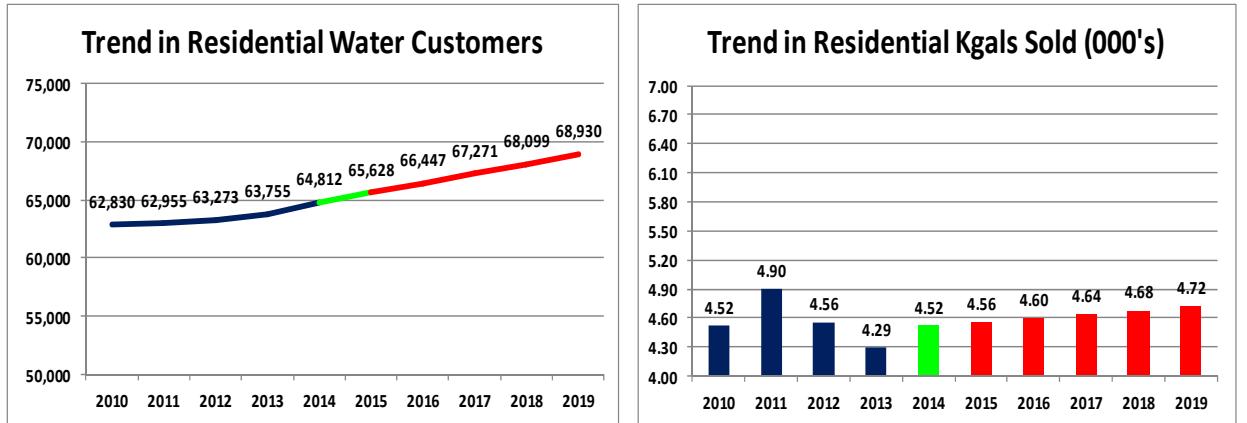

Utility tax revenues are a function of three variables: number of customers, consumption per customer, and price. The tables below outlines GRU's projection for residential customers per system as well as unit sales through the forecast period.

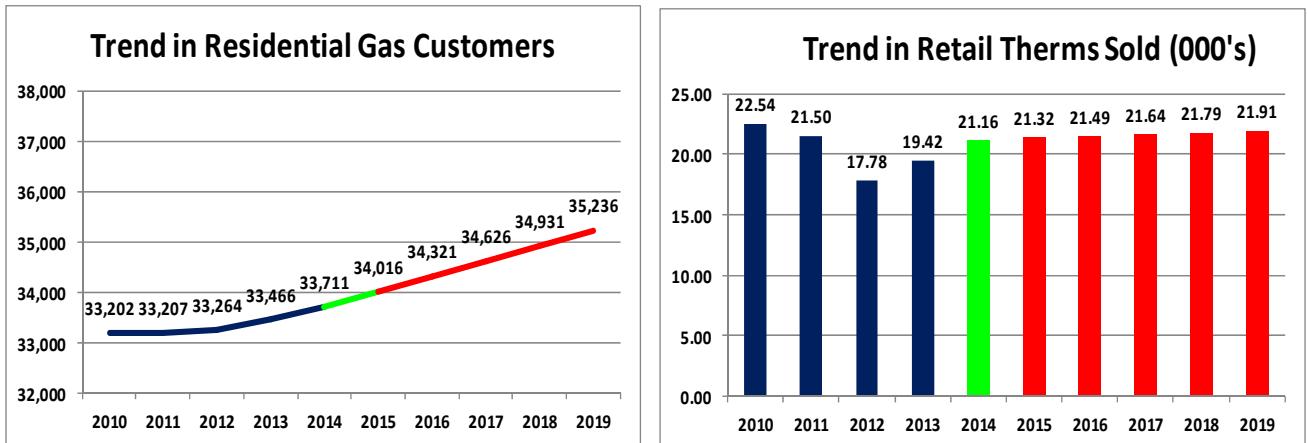

Over the forecast period FY15 – FY19, residential customers are projected to increase at an annual average of .79%, while residential megawatts sold are projected to grow at .34% per year.

## Five Year Financial Forecast FY15 – FY19

---

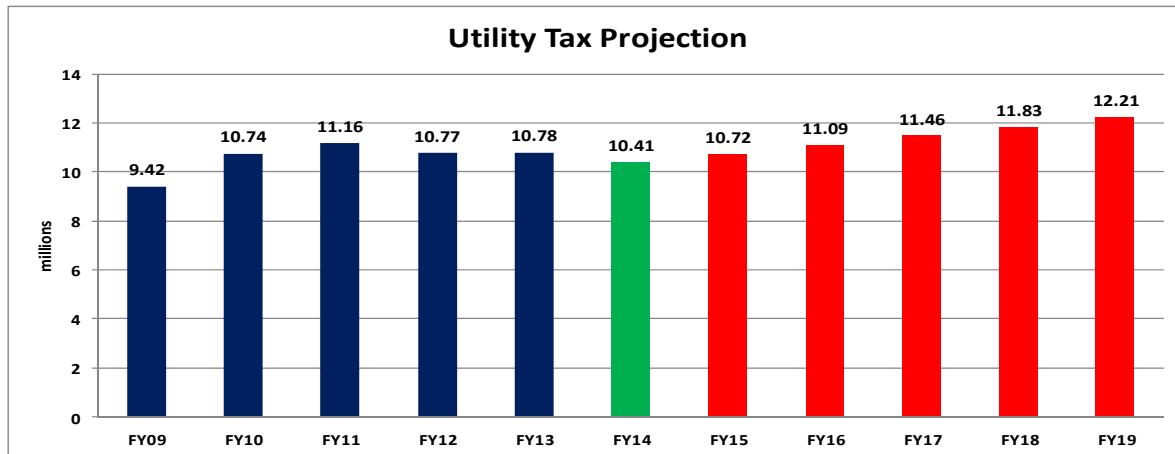

Residential customers are forecast to increase on average by 1.24% per year and residential Kgals sold by .88% per year from FY15 through FY19.

Residential gas customer growth is estimated at an average of .89% over the forecast period, and retail therms sold are projected to grow at .78% per year.

Utilizing these estimated consumption levels generates the following projection for utility taxes.

## Five Year Financial Forecast FY15 – FY19

### Intergovernmental Revenues

- State revenue sharing
- Half cent sales tax

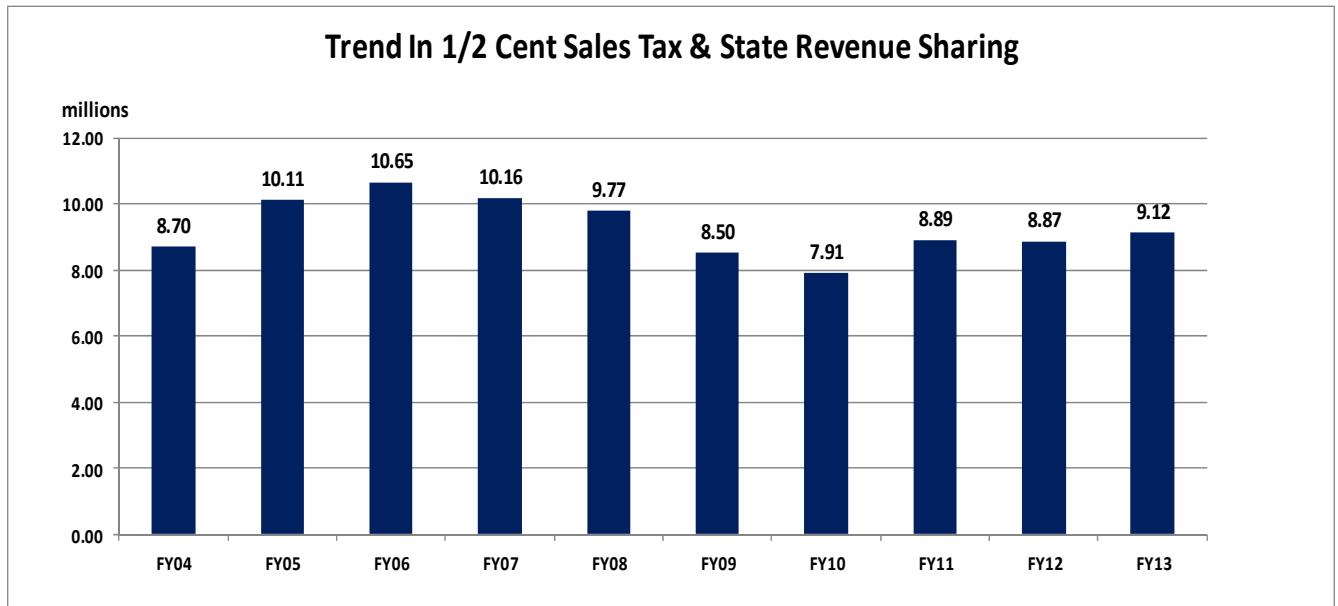

### FY15 - FY19 Key Assumptions

- Projected growth based on a combination of State of Florida CPI & population growth forecasts

#### Background

Intergovernmental revenues have historically provided a stable revenue stream for the City of Gainesville. However, in recent years the effects of the recession on the State's economy have resulted in a noticeable impact on this revenue source. The graph below demonstrates the decline in revenues over the past five years. The receipts over the past five years, FY09 through FY13, are approximately \$6.10 million or 12.4% less than revenues received over the prior five year period FY04 through FY08.

## Five Year Financial Forecast FY15 – FY19

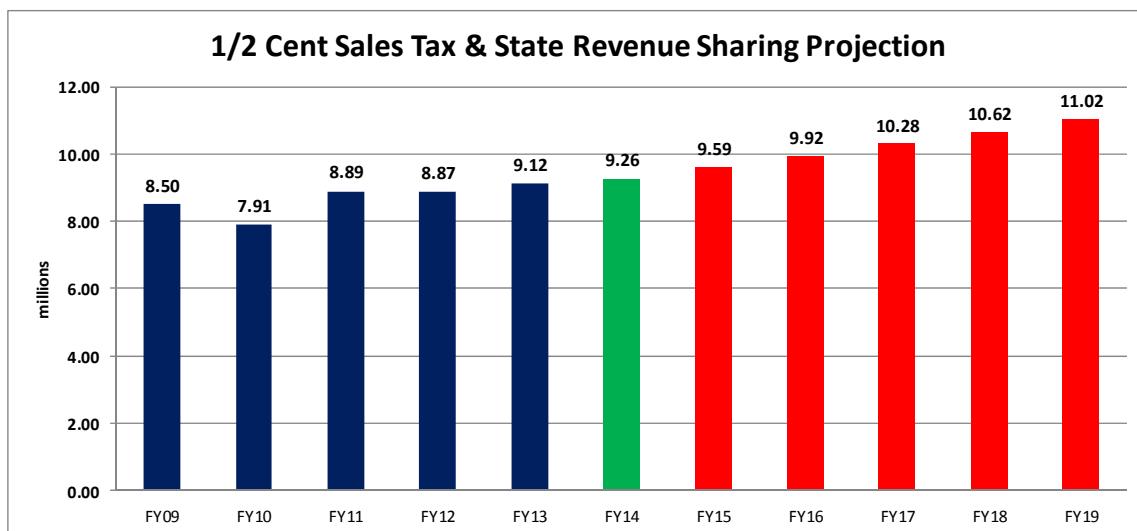

### Forecast

Going forward, we are basing the growth estimate for this revenue on the State of Florida's combined projections for CPI and population growth.

Applying these growth estimates produces an intergovernmental revenue forecast as detailed in the graph below. As the graph shows, these projected growth rates from 3.1% to 3.4% will produce increased revenues when compared to the last five years.

| <b>STATE OF FLORIDA</b>               |               |
|---------------------------------------|---------------|
| <b>COMBINED: CPI &amp; POPULATION</b> |               |
| <b>GROWTH ESTIMATES FY15 - FY19</b>   |               |
| <b>FY15</b>                           | <b>3.092%</b> |
| <b>FY16</b>                           | <b>3.119%</b> |
| <b>FY17</b>                           | <b>3.445%</b> |
| <b>FY18</b>                           | <b>3.367%</b> |
| <b>FY19</b>                           | <b>3.432%</b> |

## Five Year Financial Forecast FY15 – FY19

### Communications Services Tax

- Temporary 12 month rate hike in FY08
- Steadily declining revenue

### Key Assumptions FY15 - FY19

- Projected growth based on December 2013 State of Florida Revenue Estimating Conference forecast

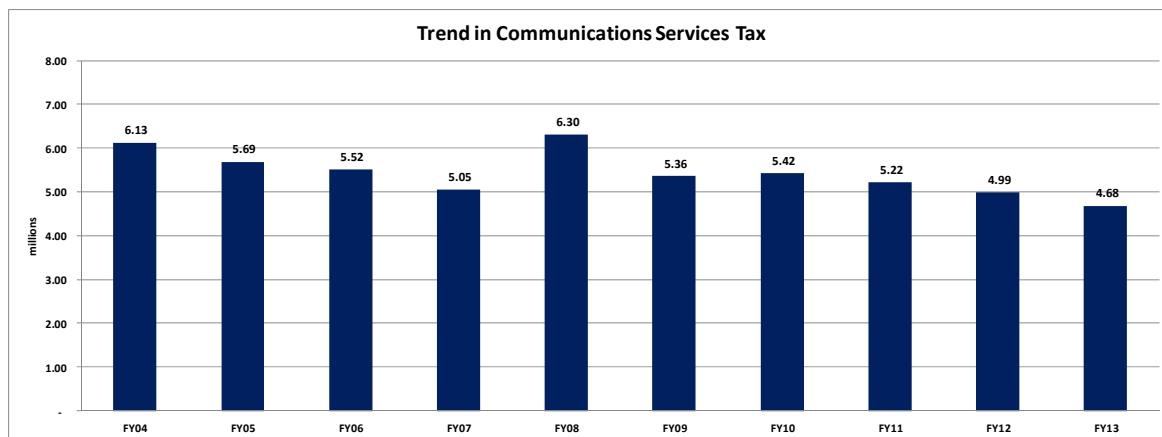

#### Background

Absent a temporary rate hike in FY08 to generate funds to repay Alachua County for monies which had been erroneously allocated to the City, Communications Services Tax has proven to be a steadily declining revenue source. As the following ten year trend graph illustrates, the revenue received in FY13 is \$1.45 million or 23.7% below that received a decade ago in FY04.

According to the State Department of Revenue, statewide CST receipts declined 20% over the period between 2009 and 2012. They cited several factors for this reduction:

- Increasing competition has driven down prices,
- Prepaid phone services, which comprise approximately 28% of services in Florida, are exempt from CST, and
- Satellite television is exempt from the local portion of CST.

Complicating the situation for Gainesville is that being a university city, a large percentage of students have cell phones rather than land lines, and the billing address (which is where the revenue flows) may be the home address of the student rather than their address here in Gainesville.

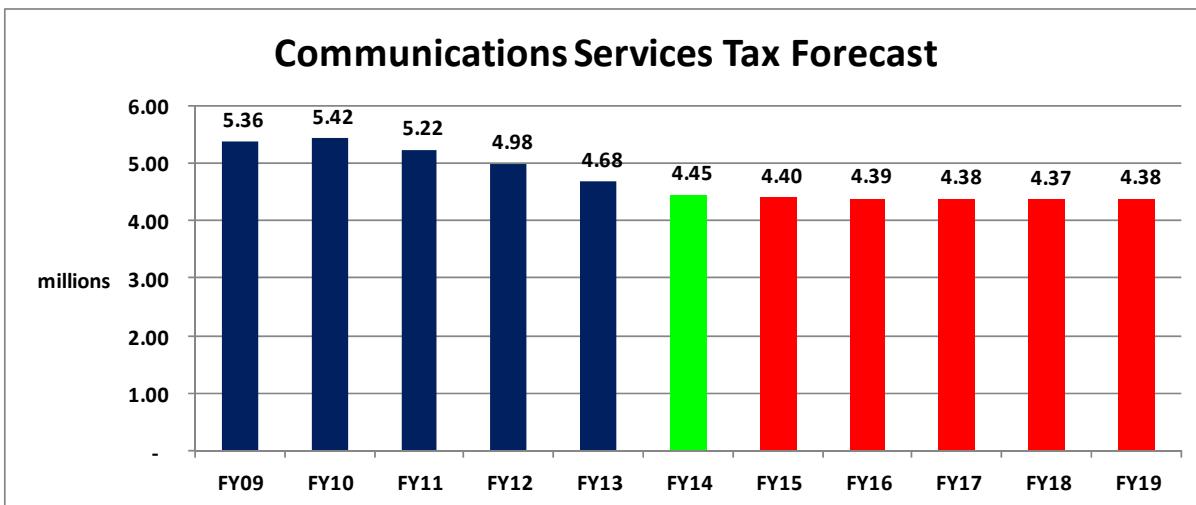

## Five Year Financial Forecast FY15 – FY19

### Forecast

This table outlines the State of Florida's December 2013 Revenue Estimating Conference forecast for Communications Services Tax growth. These projections were used to develop the forecast for this revenue as detailed in the graph below.

| STATE OF FLORIDA<br>COMMUNICATIONS SERVICES TAX<br>GROWTH ESTIMATES FY15 - FY19 |               |
|---|---------------|
| <b>FY15</b>   | <b>-1.22%</b> |
| <b>FY16</b>   | <b>-0.23%</b> |
| <b>FY17</b>   | <b>-0.16%</b> |
| <b>FY18</b>   | <b>-0.15%</b> |
| <b>FY19</b>   | <b>0.06%</b>  |

### Fire Assessment

- Initiated in FY11
- Diversifies General Fund revenue stream

### Key Assumptions FY15 - FY19

- \$78 per factored fire protection unit
- State of Florida population growth projections for Alachua County

## Five Year Financial Forecast FY15 – FY19

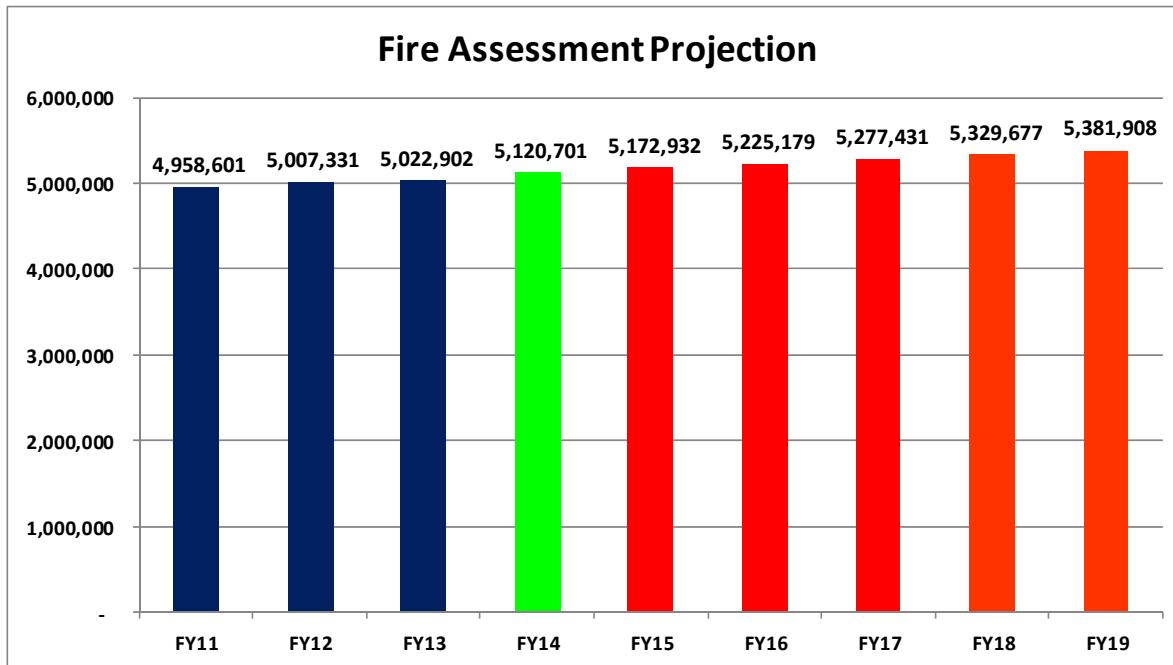

---

### Background

Implementation of the Fire Assessment in FY11 was the first notable diversification of General Fund revenues in recent memory. This incremental revenue broadened the base of those who pay to provide the resources to cover the cost of City service delivery, which is particularly important as the percentage of property within the corporate limits which is taxable continues to decline.

The assessment is based on a charge of \$78 per factored fire protection unit. Fire protection units are developed based on a combination of the usage and the square footage of the structure. Staff is projecting that this \$78 figure will remain in place throughout the forecast period, and estimating growth based on the State's population growth projections for Alachua County. Staff is currently working to update fire assessment metrics such as cost of providing services, call loads, etc. in order to ensure that the \$78 per factored fire protection unit still represents the 50% level. This updated information will be brought forward as part of the FY15-FY16 budget process.

Based on these assumptions, the fire assessment revenue projection for FY15 – FY19 is as follows:

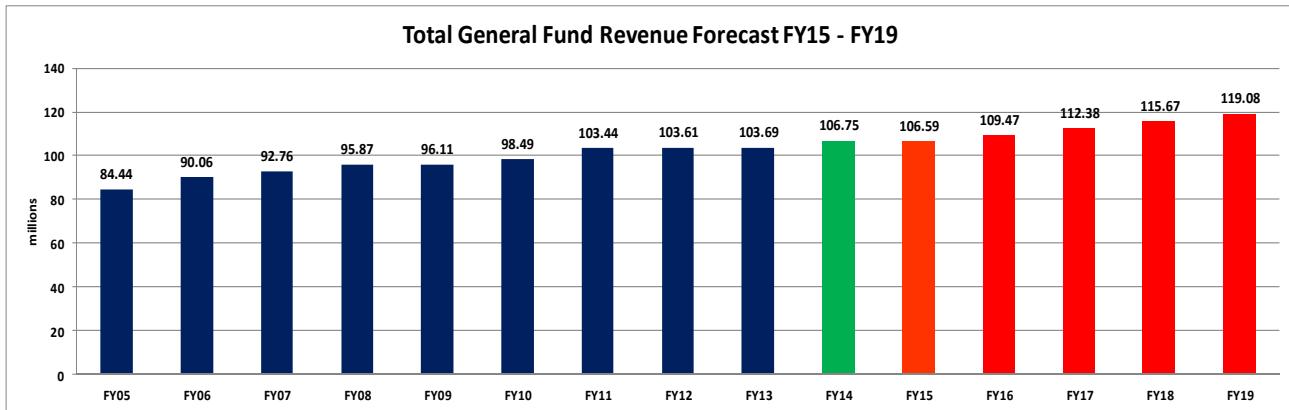

## Five Year Financial Forecast FY15 – FY19

---

### REVENUE SUMMARY

The following table and graph depict the projected trend in total General Fund revenues over the FY15 through FY19 forecast period:

| <b>FY15 - FY19 GENERAL FUND REVENUE FORECAST SUMMARY</b> |                    |                    |                    |                    |                    |

profiles of several of the individual significant sources differ markedly from others, and to derive a full picture of the General Fund revenue outlook over the next five years

requires that the revenues be reviewed in the proper context. Some of the salient features are:

- The revenue source with the weakest growth profile is by far the largest, the Utility Transfer. Not only is the ongoing revenue growth relatively low over the entire forecast period, this source also suffers an almost \$3 million decline between FY14 and FY15 when the shift is made from the four year fixed agreement to the proposed new algorithm. The performance of

## Five Year Financial Forecast FY15 – FY19

---

this revenue source, which comprises more than a third of General Fund revenue, has a noticeable deleterious effect on General Fund bottom line revenue growth.

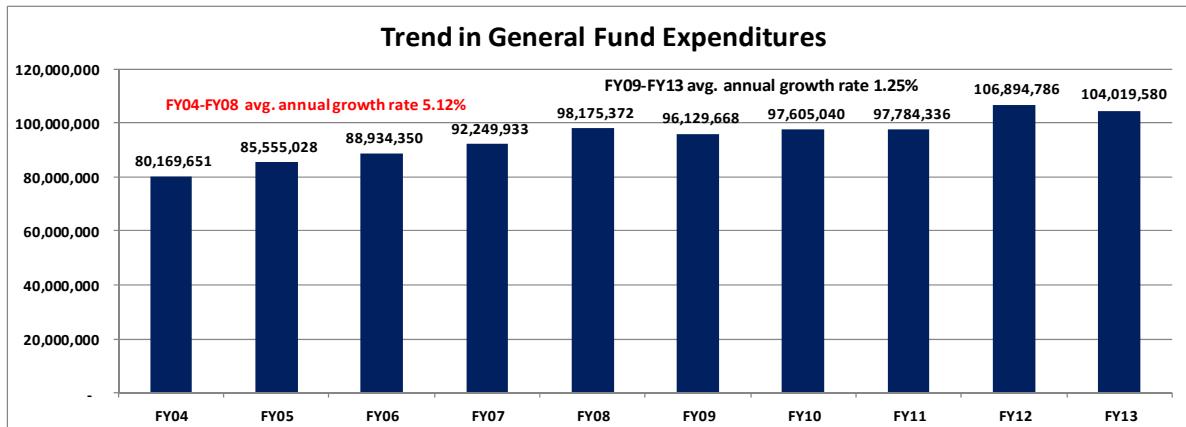

- Utility tax demonstrates solid growth characteristics of 3% - 3.5% per year during the FY15 – FY19 forecast period, but it should be remembered that this comes on the heels of declines in this source which have seen FY14 budgeted levels almost three quarters of a million dollars below peak FY11 revenues.
- Property tax revenues are rebounding after the effects of the recession, and buoyed by the addition of \$1.4M per year in biomass plant related revenue under the revised GFT formula are projected to grow from 3.7% to 8.4% per year over the forecast period.
- Growth in half cent sales tax and state revenue sharing are consistent at between 3% and 4% through the forecast, but even these levels are down from the state's previously projected growth rates included in the FY13 – FY17 Five Year Forecast.
- Projected Communications Services Tax revenue is expected to decline over most of the forecast period and Fire Assessment revenue growth is nominal.

### EXPENDITURES

In response to the financial pressures brought on by the recession in 2008 as well as legislative actions at the state level, the City of Gainesville initiated a number of steps to alter the profile of the organization to address projected changes in the trajectory of future revenue growth. These measures included:

- Hiring and travel freezes,
- \$9.5 million in departmental cuts,
- \$2.6 million in non-departmental decrements,
- \$3.4 million in organizational efficiencies,
- More than 81 full-time equivalent position reductions.

These initiatives have been noticeably successful in controlling expenditure growth over the past five years.

## Five Year Financial Forecast FY15 – FY19

As the graph above indicates, the average annual rate of growth in General Fund expenditures over the five year period from FY04 – FY08 was 5.12%. The growth rate for the succeeding five year period fell to 1.35%.

The following chart breaks down total expenditures by major category over the past decade.

|                                | COMPOSITION OF GENERAL FUND EXPENDITURES |                   |                   |                   |                   |                   |                   |                   |                    |                    |
|--------------------------------|--|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|--------------------|--------------------|
|                                | FY04                                     | FY05              | FY06              | FY07              | FY08              | FY09              | FY10              | FY11              | FY12               | FY13               |
| Personal services              | 48,798,720                               | 53,180,187        | 54,404,065        | 56,010,111        | 57,289,112        | 59,249,057        | 59,126,148        | 58,539,917        | 58,882,856         | 61,539,871         |

Following is a detailed analysis of the major General Fund expenditure categories.

### Personal Services

- Only \$2.2M increase between FY09 & FY13 despite:
  - \$3.3M increase in pension contributions
  - 13 firefighter positions for Fire Station 8 move from SAFER grant to General Fund in second half of FY13

### Key Assumptions FY15 - FY19

- No raises FY15, 2% FY16 - FY19
- Pension earnings assumption rate drawn down from 8.5% to 7.9% in equal increments over forecast period
- Proposed increase of 13.5 positions

#### Background

The following table breaks out General Fund personal services costs over the past ten years. There are a number of significant takeaways from this information:

- Direct salary and wage growth has slowed considerably between the five year period from FY04 – FY08 and FY09 – FY13. The average annual growth rate for the first five years of the past decade was 3.74%, while the growth over the most recent five years has been .25% per year.

## Five Year Financial Forecast FY15 – FY19

---

- Pension contributions increased almost \$3.9 million over this period, or 350%. The benefit structure changes bargained with the various City unions will begin over time to moderate the growth in this expense.
- The increase in FY13 over FY12 in total personal services costs are primarily associated with the fact that the SAFER grant, which was funding the 13 firefighter positions added for Fire Station 8 expired during FY13, leaving the General Fund to pick up these salaries for half of the year.

|                                    | PERSONAL SERVICES |                   |                   |                   |                   |                   |                   |                   |                   |                   |

There are several clarifications required for the data above. The first relates to overtime. In FY08 police billable overtime expenditures (overtime performed for and paid by third party vendors) were moved from the General Fund to a special revenue fund, along with the revenues associated with this overtime. After adding this overtime back to the chart for consistency purposes, the overtime trend for the period FY04 – FY13 is as follows:

|                                  | GENERAL FUND OVERTIME TREND FY04 - FY13 |                  |                  |                  |                  |                  |                  |                  |                  |                  |
|----------------------------------|---|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|
|                                  | FY04                                    | FY05             | FY06             | FY07             | FY08             | FY09             | FY10             | FY11             | FY12             | FY13             |
| Regular overtime                 | 1,669,557                               | 1,905,489        | 1,760,160        | 1,554,032        | 1,821,943        | 1,572,231        | 1,040,724        | 1,025,853        | 1,201,916        | 1,277,779        |
| Billable overtime - General Fund | 542,795                                 | 536,026          | 740,622          | 703,365          | 1,030            | -                | 26,529           | 36,605           | 20,986           | 32,868           |

The second adjustment is in the pension contribution area. In 2003 the City issued Pension Obligation Bonds (POBs) to retire the unfunded liabilities in the City's defined contribution pension plans. The result was a one- time deposit of bond proceeds into the defined benefit plans, reductions to the City's annual contributions to the plans related to the retired unfunded liabilities, and the addition to annual City pension costs of debt service on the POBs. When combining the debt service associated with the POBs with contributions to the pension plan to determine total General Fund pension cost for the period, the result is:

## Five Year Financial Forecast FY15 – FY19

---

|                       | TOTAL GENERAL FUND PENSION COST FY04- FY13 |           |           |           |           |           |           |           |           |           |
|-----------------------|--|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
|                       | FY04                                       | FY05      | FY06      | FY07      | FY08      | FY09      | FY10      | FY11      | FY12      | FY13      |
| Pension contributions | 1,555,412                                  | 2,111,355 | 2,337,643 | 2,126,421 | 2,213,517 | 2,171,269 | 2,651,575 | 4,039,920 | 4,543,332 | 5,451,531 |
| POB debt service      | 2,840,352                                  | 2,905,713 | 2,782,187 | 2,955,778 | 3,140,822 | 3,334,596 | 3,533,392 | 3,667,739 | 3,902,457 | 4,036,135 |
| Total pension cost    | 4,395,764                                  | 5,017,068 | 5,119,830 | 5,082,199 | 5,354,339 | 5,505,865 | 6,184,967 | 7,707,659 | 8,445,789 | 9,487,666 |

As the chart indicates, total General Fund pension costs increased 77% over the past five years, and have more than doubled over the past decade.

Accounting changes were initiated in FY05 for Consolidated Pension premium tax costs as well as workers compensation. This accounts for the fact that there are no expenditures in the line items in FY04.

One final note on personal services relates to longevity. This payment category is available only to employees hired prior to March of 1992; therefore the population receiving this payment is a closed group, and as they leave the organization this expense should continue to decline.

### Forecast

In developing the personal services forecast for the next five years management incorporated several basic assumptions:

- No pay increases in FY15, and 2% pay increases each year for FY16 through FY19
- The earnings assumptions for both the General Pension Plan and the Police Officers' and Firefighters' Consolidated Pension Plan will be reduced .10% per year from 8.5% to 7.9% over the forecast period of FY15 through FY19

To determine the potential change in the size of the workforce over the next five years, Budget staff met with each department to survey their potential staffing needs. Incremental changes are detailed below.

Planning & Development Services In order to keep pace with a number of potentially large projects on the horizon, such as the expansion of Butler Plaza and the development of Innovation Square, Planning projects the need for an additional half-time planner and a full-time Zoning Technician, both beginning in FY17.

Clerk of the Commission The Clerk has requested to convert the existing half-time Deputy Clerk position to full-time to meet increasing work level demands.

City Attorney The City Attorney has indicated that, in addition to several reclassifications of existing attorney positions, that the Legal Assistant position can be unfunded for FY15.

## Five Year Financial Forecast FY15 – FY19

---

Budget & Finance To meet service level demands associated with the increasing number and complexity of grants, Budget & Finance is requesting an additional Grants Program Specialist to begin in FY17.

Public Works Federal regulatory changes related to the reflectivity of traffic signs will require that the City replace all existing traffic signs over the next ten years. Therefore Public Works is requesting an additional Signs & Marking Technician beginning in FY17.

GPD The Chief of Police is requesting the addition of a Latent Fingerprint Examiner beginning in FY15.

In addition, GPD is recommending increases to their temporary staff, school crossing guards, overtime, and expert witness budgets. These requests are all to more closely align their budgets with previous years' actual costs and projected trends.

GFR GFR is requesting another Fire Inspector beginning in FY18 to meet operational needs during the forecast period.

General Services Over the forecast period there is the potential that General Services will have several buildings added to their maintenance responsibilities, including

- GTEC
- One Stop Homeless Center
- Army Reserve facility
- Fire Station 1
- Southern Charm restaurant
- Lunch Box Cafe
- Depot Building

The expense related to the final three buildings on this list was previously the responsibility of the CRA.

To properly service these additional facilities, General Services is requesting the addition of an electrician and a carpenter beginning in FY17.

Parks, Recreation & Cultural Affairs: Over the next five years PRCA's responsibilities are anticipated to expand in several areas. Some of these incremental tasks will require additional personnel.

A prime example is Depot Park. When Depot Park and the Depot Park Building come on line, PRCA is estimating the need for the following additional positions to meet expanded workloads: Two Park Maintenance Worker IIs, one Facilities Coordinator, and a half-time Building Attendant.

Human Resources To assist in meeting the City's diversity goals, Human Resources is requesting the addition of a Diversity Recruiter.

## Five Year Financial Forecast FY15 – FY19

---

Communications To continue to improve the quality of the City's website, they are requesting a Web Applications Developer Sr. position.

The following table summarizes the additional position requests:

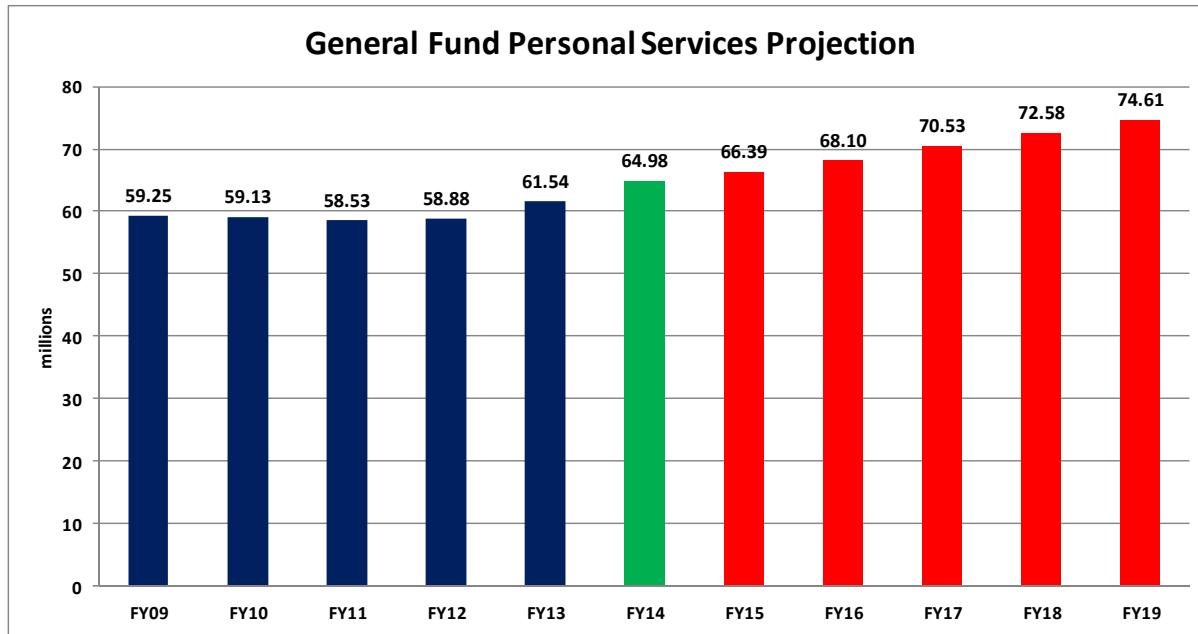

|   | <b>GENERAL FUND PROJECTED STAFF ADDITIONS FY15 - FY19</b> |             |             |             |             |
|---|---|-------------|-------------|-------------|-------------|
|   | <b>FY15</b>   | <b>FY16</b> | <b>FY17</b> | <b>FY18</b> | <b>FY19</b> |
| <b>Planning &amp; Development Services</b>      |   |             |             |             |             |
| Zoning Technician                               |   |             | 1.00        |             |             |
| Planner   |   |             | 0.50        |             |             |

## Five Year Financial Forecast FY15 – FY19

---

### Operating Expenditures

- 75% of operating expenditures come from:
  - Utilities
  - Fuel
  - Other contractual services
  - Fleet maintenance & fleet fixed costs

### Key Assumptions FY15 - FY19

- Utilities- nominal changes in consumption, price changes per GRU
- Fuel - nominal changes in consumption, 2% price increase per year
- Other operating expenditures - State of Florida CPI

#### Background

The chart below provides a breakdown of General Fund operating expenditures over the past decade.

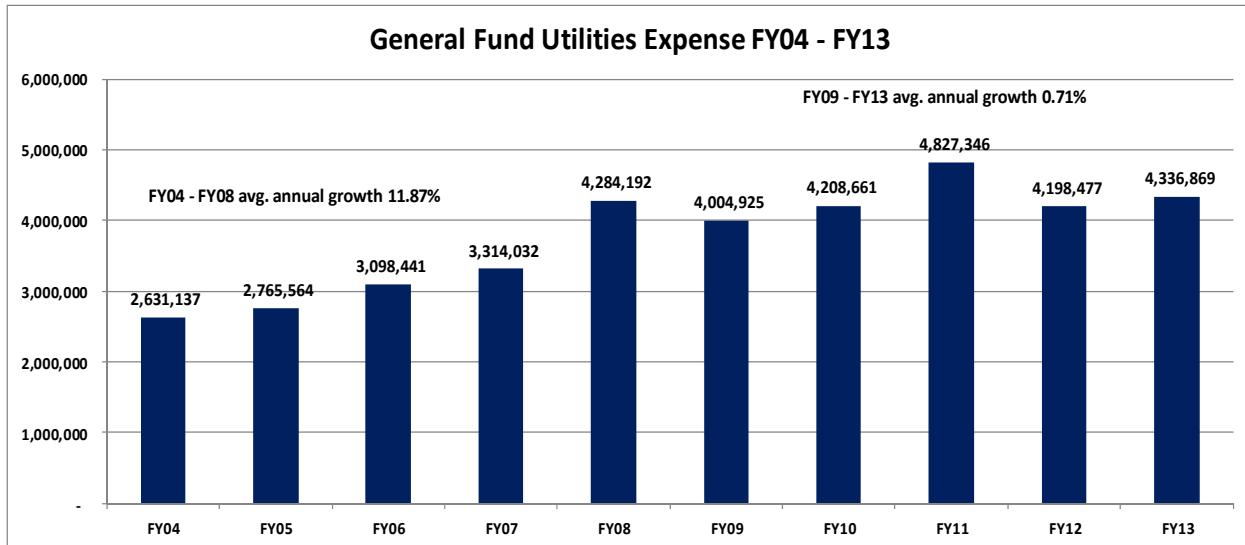

|                         | GENERAL FUND OPERATING EXPENDITURES FY04 - FY13 |            |            |            |            |            |            |            |            |            |
|-------------------------|---|------------|------------|------------|------------|------------|------------|------------|------------|------------|
|                         | FY04  | FY05       | FY06       | FY07       | FY08       | FY09       | FY10       | FY11       | FY12       | FY13       |

| Total                   | 22,531,569                                      | 23,343,901 | 21,323,125 | 21,548,011 | 23,850,946 | 22,652,461 | 22,885,382 | 23,227,699 | 24,746,340 | 24,945,492 |

Following is a discussion of several of the major categories within the operating expenditure area.

**Utilities:** As was discussed in the revenue section on utility taxes, the cost of utilities is a function of consumption and prices. As the graph below indicates, the growth rate in General Government utilities expense has declined noticeably over the last five years as compared to the five years prior.

## Five Year Financial Forecast FY15 – FY19

---

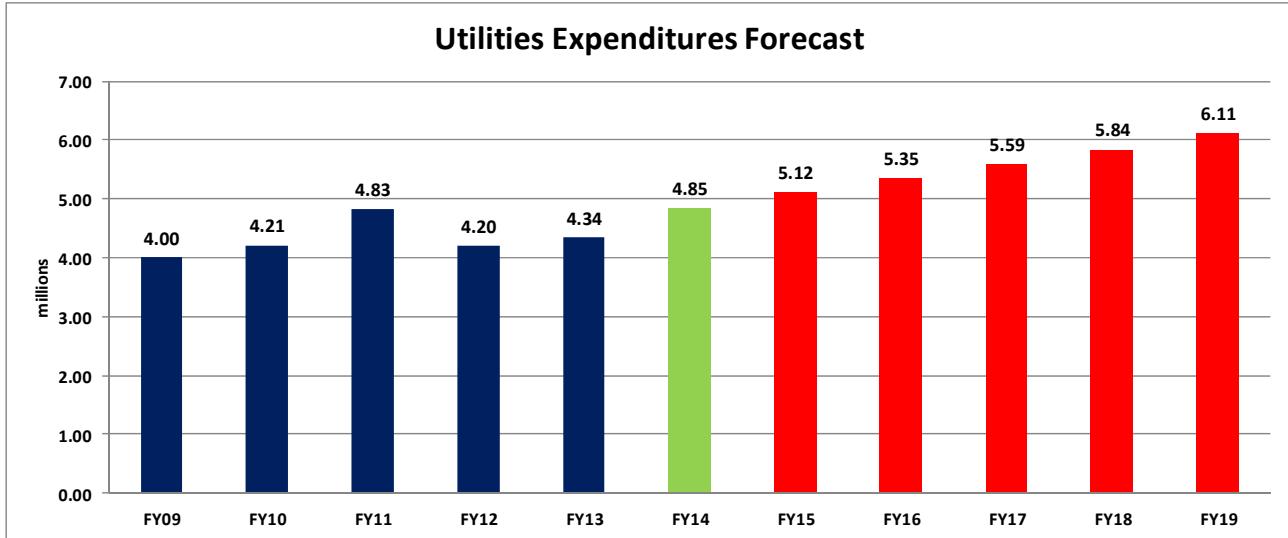

The City has put in place a number of steps to help control consumption growth:

- Implementation of the four-day workweek
- Installation of energy efficiency upgrades to City Hall, the Old Library and the Thomas Center
- Hiring a full-time Energy Analyst

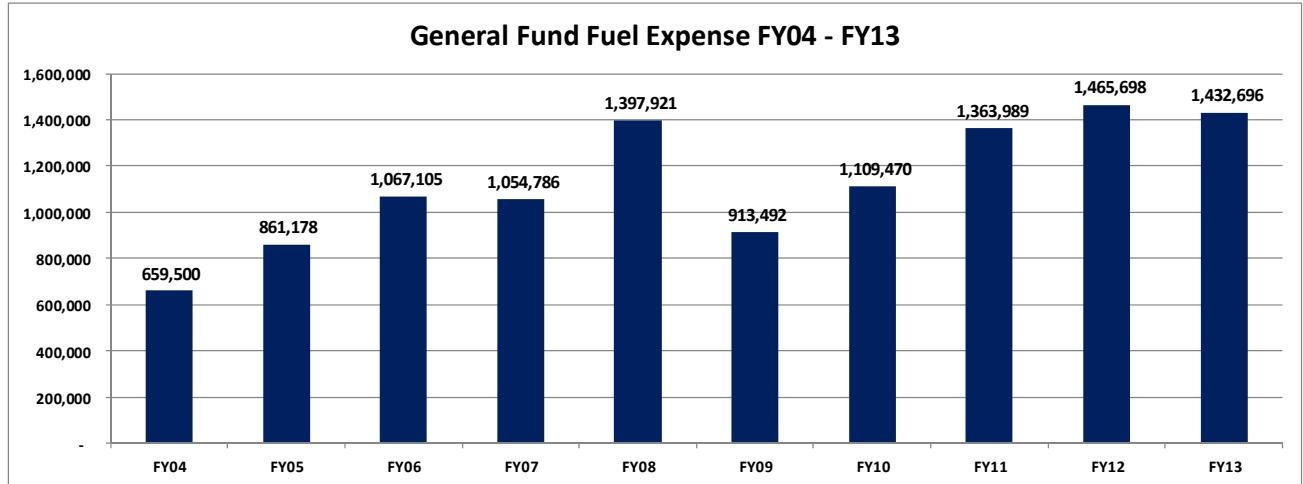

### Forecast

Taking into account the efficiency measures the City has implemented, factoring in price change estimates, and incorporating the new and/or expanded facilities we project to have on line within the five year planning period results in the following projection for utilities expense:

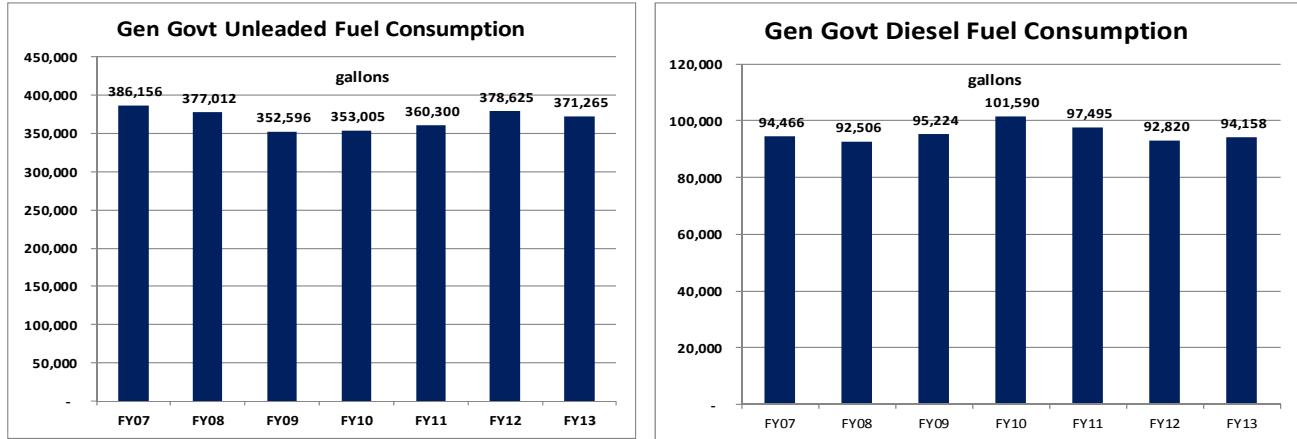

## Five Year Financial Forecast FY15 – FY19

**Fuel:** Once again as a commodity the expense associated with fuel is based upon consumption and price. The chart below shows the impact on fuel expense from the price swings we have experienced over the past several fiscal years.

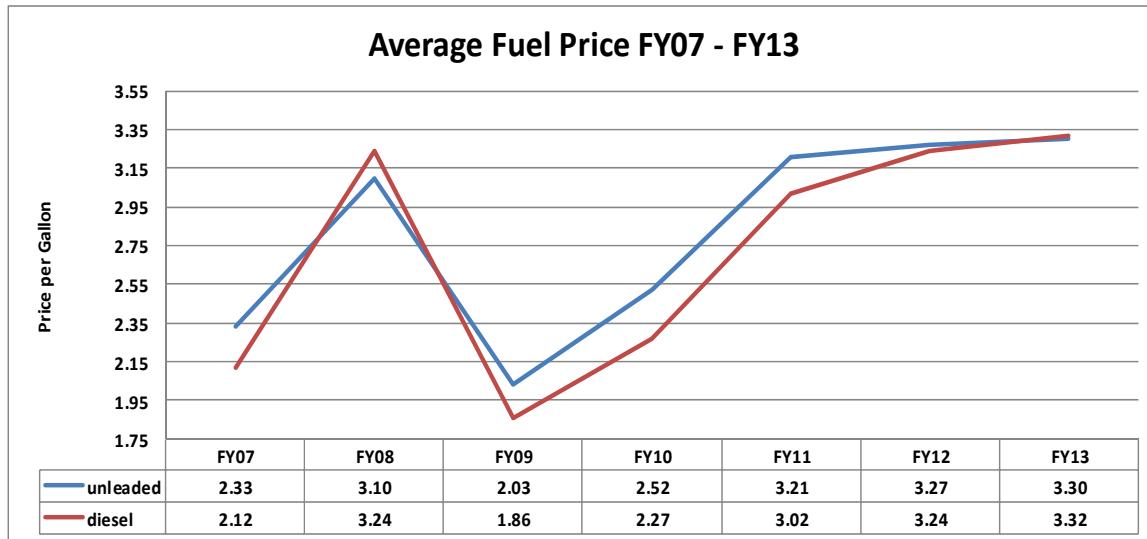

On the consumption side of the equation, the graphs below indicate that General Government fuel usage, both for unleaded and diesel, has remained fairly consistent over recent years. Consumption has been moderated through the purchase of more fuel-efficient vehicles, a down-sizing of the fleet, rigorous enforcement of preventative maintenance schedules, and the implementation of the four-day workweek.

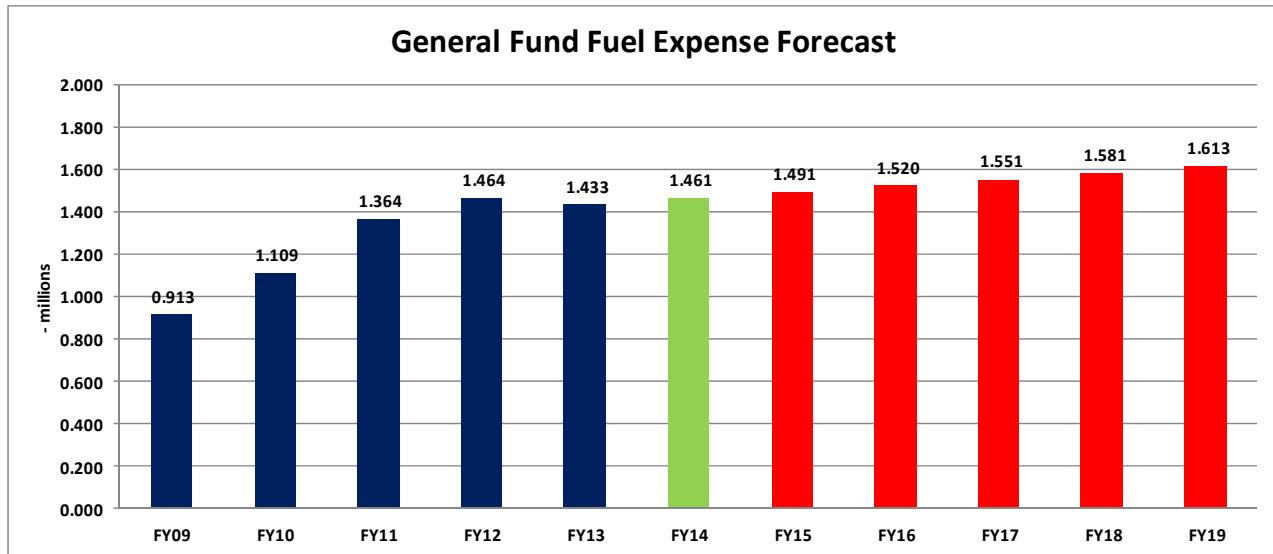

The other side of the equation is price. The following graph demonstrates the fluctuations in the average price the City has paid for fuel over the past seven years.

## Five Year Financial Forecast FY15 – FY19

### Forecast

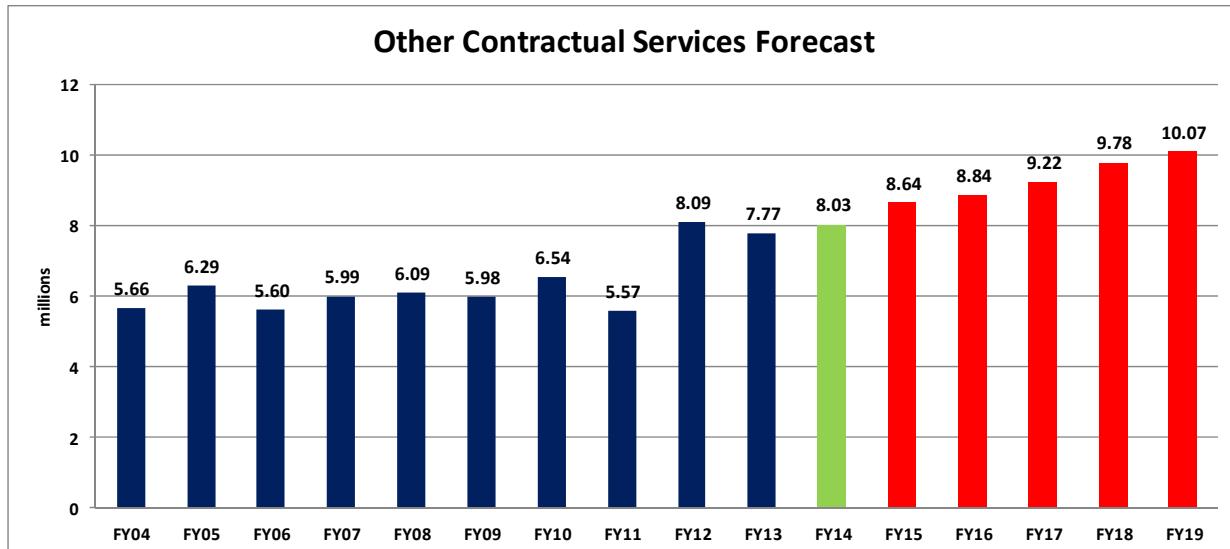

Based upon input from the General Services Director as to anticipated consumption and projected price increases of 2% per year over the next five years, the fuel expense projection for FY15 – FY19 is as follows:

**Other Contractual Services:** The primary individual components of the other contractual services expense category are the Combined Communications Center, the Alachua County Streetlight agreement, and City elections. As the graph below indicates, expense in this category has ranged between \$5.6 million and \$8.1 million over the past decade. The five year projection for this expense category is as follows:

## Five Year Financial Forecast FY15 – FY19

---

The noticeable jump in expense between FY11 and FY12 is due to the consolidation of General Government's Information Technology Department with GRU. Before the consolidation, the expenditures associated with this function were distributed as with a normal department, i.e. personal services, operating expenditures, etc. After the function was consolidated with GRU, General Government began to make monthly payments to GRU for administration of the services, and the entire cost of operating the department is coded as Other Contractual Services.

The increase in the rate of growth in this expense projected over the forecast period is the result of the responsibility for funding certain operating tasks previously funded by CRA and Wild Spaces Public Places being shifted to the General Fund.

Following is a summary of the General Fund operating expenditures forecast.

|                                 | <b>GENERAL FUND OPERATING EXPENDITURES PROJECTION</b> |                   |                   |                   |                   |

A detailed discussion of the more significant non operating expenditure categories follows.

**Debt service** The City's debt service profile is dominated by the 2003 Pension Obligation Bonds (POBs) and the 2005 Taxable Other Post Employment Benefit Obligation Bonds (OPEBs). As the outstanding debt graph below demonstrates, over 70% of the City's outstanding principal and interest as of September 30, 2013 is attributed to these two issues.

These two issues were created to generate savings for the City by retiring unfunded liabilities in the City's defined benefit pension plans and the retiree health insurance trust fund. The interest rate the City pays on the debt associated with these issues is lower than the interest that was being paid on the unfunded liabilities, thus creating the savings outlined below.

## Five Year Financial Forecast FY15 – FY19

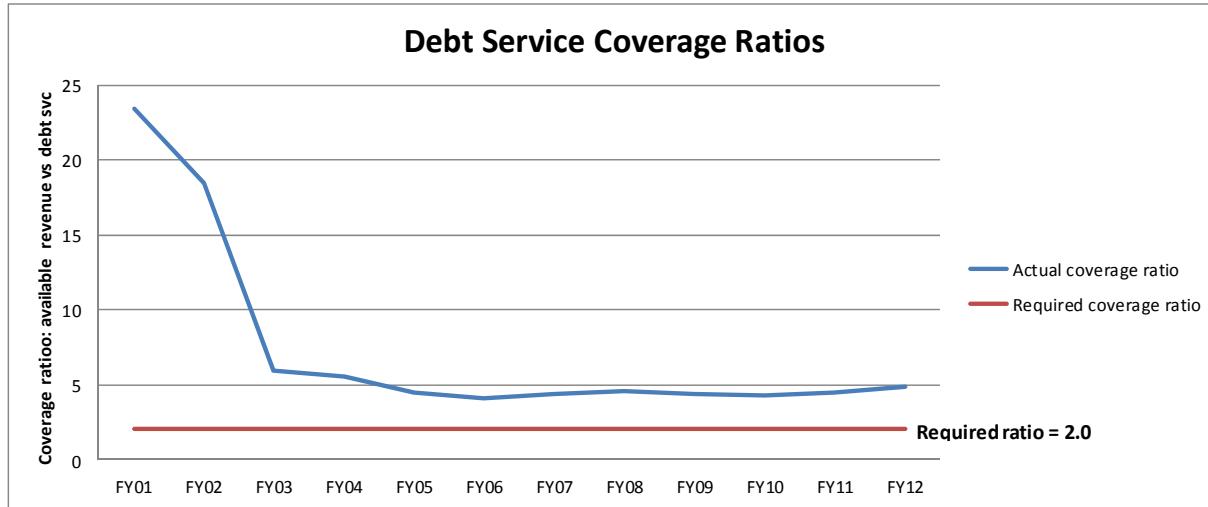

Even including these two relatively large issues, the City's outstanding debt metrics are well within the debt capacity and affordability measures prescribed in the current debt management policy.

| Debt capacity & affordability measure                     | DEBT MANAGEMENT POLICY COMPLIANCE |             |                 |             | Actual net of POB/OPEB % | Actual net of POB/OPEB \$ |
|---|-----------------------------------|-------------|-----------------|-------------|--------------------------|---------------------------|
|   | Policy Limit                      |             | Actual @ FYE 13 |             |                          |                           |
|   | %                                 | \$          | %               | \$          |                          |                           |
| O/S debt service as a % of taxable property value         | 10.00%                            | 514,000,000 | 4.79%           | 246,170,738 | 1.41%                    | 72,226,046                |
| Annual debt service as a % of General Fund revenue        | 15.00%                            | 15,553,592  | 9.88%           | 10,241,861  | 3.87%                    | 4,046,998                 |
| Per capita debt (principal) as a % of per capita revenues | 6.00%                             | 50          | 5.92%           | 49.56       | 3.59%                    | 33.07                     |
| O/S debt service per capita                               |                                   | 3,000       |                 | 2,117       |                          | 745                       |

Additionally, our debt service coverage ratios (legally available revenues divided by debt service) have been and continue to be strong.

## Five Year Financial Forecast FY15 – FY19

In the early 2000's our coverage ratios were in the low 20s and high teens. Upon the issuance of the POBs and OPEBs, the ratio as expected fell considerably, but is still well above the required 2.0 at 4.90.

At this point, the only anticipated future debt issuance within the forecast period is a \$21 million issue planned for FY15.

Applying the projected debt service associated with this future bond issue to the existing outstanding debt service profile generates the following debt service costs over the forecast period.

| GENERAL FUND DEBT SERVICE FY15 - FY19 |                   |                   |                   |                   |                  |
|---------------------------------------|-------------------|-------------------|-------------------|-------------------|------------------|
|                                       | FY15              | FY16              | FY17              | FY18              | FY19             |

## Five Year Financial Forecast FY15 – FY19

---

**Transfers to Tax increment Funds:** This expense line relates to property tax revenue transferred to the City's tax increment districts. It is calculated by determining the growth in property value within specified geographic districts over and above the property value in existence at the time each tax increment district was created. Therefore the change in this expense is subject to some of the same economic effects as the broader City property tax revenue source. However, these are more concentrated geographic districts and the economic dynamics within these areas are to some degree different than that of the City as a whole.

As the table on page 38 shows, this expense grew rapidly over a good part of the last decade as property values increased, both from general value increases as well as accelerated development within these districts as a result of the City's redevelopment efforts. However, these districts were impacted by the economic downturn and decline in real estate values associated with the recent recession and the tax revenues and corresponding expenses have declined over the last several years.

To develop a projection for this expense, staff applied the same taxable base growth assumptions to the tax increment districts as were applied to the City in general. The expense estimate based on these assumptions is as follows:

| <b>TRANSFER TO TAX INCREMENT FUNDS FORECAST</b> |                  |                  |                  |                  |                  |
|---|------------------|------------------|------------------|------------------|------------------|
|   | <b>FY15</b>      | <b>FY16</b>      | <b>FY17</b>      | <b>FY18</b>      | <b>FY19</b>      |
| Downtown  | 686,706          | 719,038          | 755,325          | 799,795          | 849,344          |
| College Park/University Heights                 | 1,029,185        | 1,084,581        | 1,146,754        | 1,222,947        | 1,307,841        |
| Fifth Avenue/Pleasant Street                    | 195,533          | 204,352          | 214,250          | 226,379          | 239,894          |
| Eastside  | 194,876          | 208,960          | 224,768          | 244,139          | 265,724          |
| <b>Total</b>                                    | <b>2,106,300</b> | <b>2,216,931</b> | <b>2,341,097</b> | <b>2,493,260</b> | <b>2,662,803</b> |

**Transfers to Ironwood:** The sharp increase in this transfer line beginning in FY10 is related to the City's plan to transition Ironwood Golf Course from an enterprise fund to a program within the General Fund's Parks, Recreation, & Cultural Affairs Department over a ten year period. Based on this plan, the General Fund will transfer a dollar amount sufficient to offset the Ironwood net loss each year and, in addition, over the ten year period between FY10 and FY19 will transfer an incremental \$300,000 in order to amortize the Ironwood cash deficit of \$3M. The FY10 transfer was further impacted by the fact that the course was closed for half of that fiscal year for course renovations.

**Facilities Replacement , Equipment Replacement, and Residential Resurfacing Funds :** Beginning in FY15, the City is initiating two replacement funds, one for facilities repair, renovation and maintenance, and one for equipment replacement. These replacement funds will be funded from monies that were previously set aside for debt service on the 2005 OPEB Bonds, which will be paid off in FY14. The funds will provide monies to address facilities and equipment issues on a proactive basis and therefore will allow us to reduce long-term costs associated with these expenditures. From this same funding source, an additional \$490,000 will be allocated towards the City's residential road resurfacing program.

## Five Year Financial Forecast FY15 – FY19

---

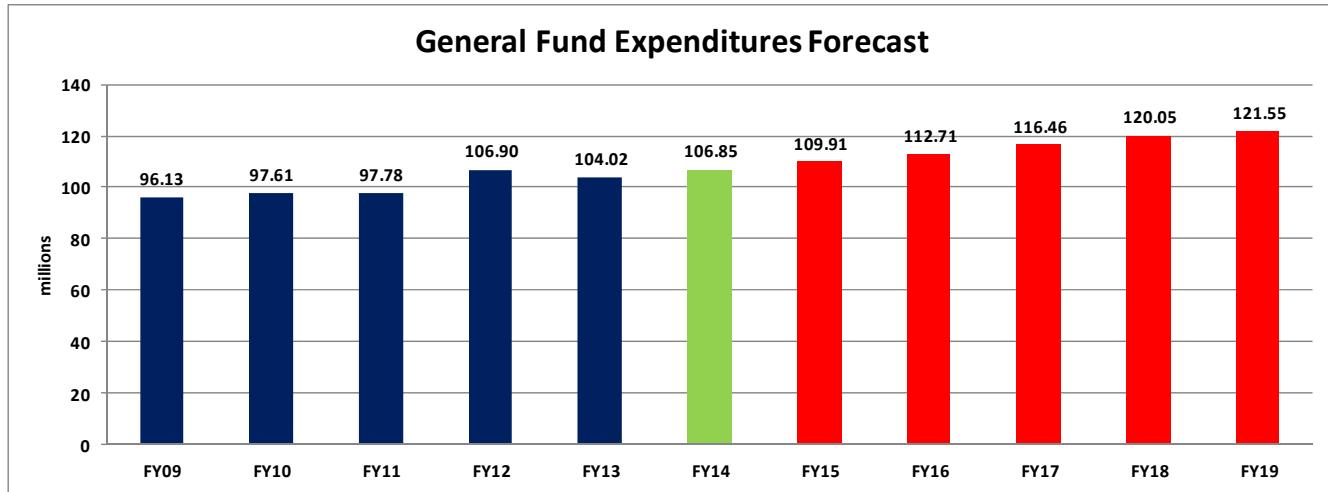

Following is a summary of the General Fund non operating expenditures forecast .

| GENERAL FUND NON OPERATING EXPENDITURES FORECAST |                   |                   |                   |                   |                   |

| <b>Deficit</b>      | <b>(3,318,619)</b>                   | <b>(3,244,809)</b> | <b>(4,084,561)</b> | <b>(4,379,230)</b> | <b>(2,453,606)</b> |

### GENERAL FUND RESERVES

Current policy calls for the City to hold 8.33% of General Fund revenues in unassigned General Fund fund balance. In 2011 staff discussed with the City Commission the possibility of amending that policy by increasing the reserve required to 10% of General Fund revenues immediately and increasing the percentage to 12.5% within three years.

The graphs below indicate how Gainesville's FY12 unassigned fund balance as a percentage of revenue compares with our Florida peers as well as certain similar cities outside of Florida.

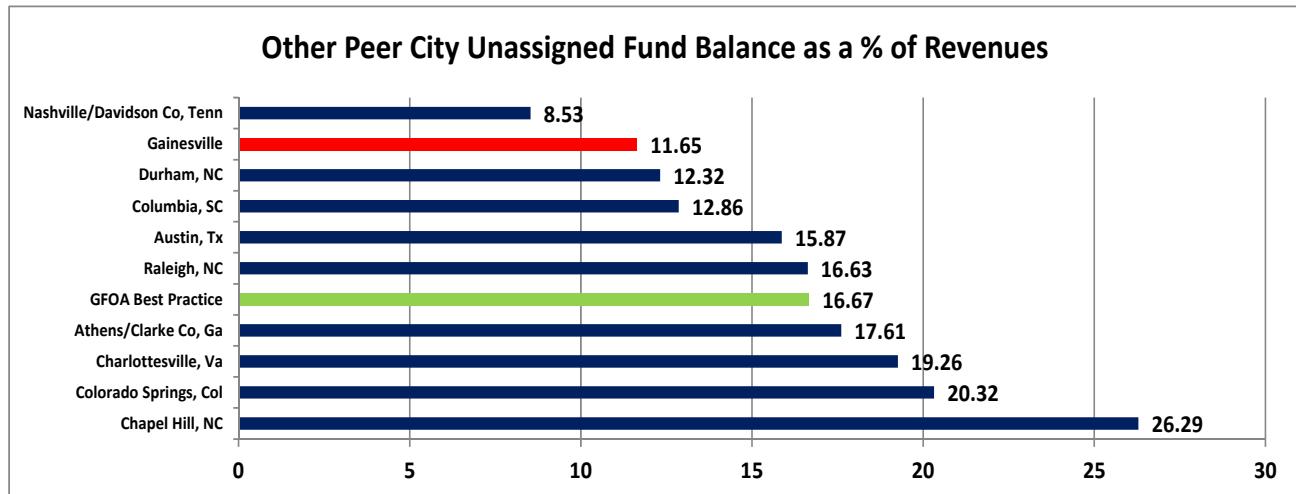

The red bar indicates Gainesville's FY12 percentage of 11.65%. Five of our peer cities have lower percentages, and four are higher. The green bar represents the Government Finance Officers Association (GFOA) "best practice" recommendation of 16.67%.

Moving to cities that share some similar demographic characteristics outside of Florida, the graph below shows that one of these cities has a FY12 unassigned fund balance as a percentage of revenues lower than Gainesville's.

## Five Year Financial Forecast FY15 – FY19

---

### Reserve Policy Recommendation

As stated earlier, the City's current reserve policy calls for the City to hold at least 8.33% of General Fund revenues as unassigned General Fund fund balance. This translates to 30 days of General Fund revenues to cope with unexpected events, such as natural disasters or unexpected interruptions to revenues. The following chart details the reserve policies for our peers.

| FLORIDA PEER CITY RESERVE POLICIES |                        | PEER CITY RESERVE POLICIES   |                        |
|------------------------------------|------------------------|------------------------------|------------------------|
|                                    | % General Fund Rev/Exp |                              | % General Fund Rev/Exp |
| Hollywood                          | 17.00%                 | Austin, Texas                | 16.67%                 |
| Coral Springs                      | 17.00%                 | Colorado Springs, Col        | 16.67%                 |
| Tallahassee                        | 16.67%                 | GFOA Best Practice           | 16.67%                 |
| Cape Coral                         | 16.67%                 | Columbia, South Carolina     | 15.00%                 |
| GFOA Best Practice                 | 16.67%                 | Raleigh, NC                  | 14.00%                 |
| Gainesville proposed policy        | 12.50%                 | Gainesville proposed policy  | 12.50%                 |
| West Palm Beach                    | 10.00%                 | Chapel Hill, NC              | 12.00%                 |
| Pembroke Pines                     | 10.00%                 | Charlottesville, Virginia    | 12.00%                 |
| Clearwater                         | 8.50%                  | Durham, NC                   | 8.33%                  |
| Gainesville current policy         | 8.33%                  | Athens/Clarke Co., Ga        | 8.33%                  |
| Miami Beach                        | 6.00%                  | Gainesville current policy   | 8.33%                  |
| Miramar                            | 5.90%                  | Nashville/Davidson Co. Tenn. | 4.00%                  |

Gainesville's policy calls for the City to hold 30 days of revenues as unreserved fund balance. The GFOA best practice recommendation is twice that, at approximately 17% or just over 60 days. It is staff's position that a policy of 30 days of unassigned fund balance leaves the City under reserved. Staff recommends changing the policy to call immediately for an increase to 10%, and move to 12.5% by September 30, 2016.

## Five Year Financial Forecast FY15 – FY19

---

The chart below illustrates how the City's actual FYE 13 General Fund unreserved fund balance compares to various reserve policy level requirements.

| COMPARISON OF RESERVE POLICY LEVELS |                           |                               |                            |
|-------------------------------------|---------------------------|-------------------------------|----------------------------|
| Policy Level<br>% of Revenues       | Required<br>Unassigned \$ | Actual Unassigned<br>@ FYE 13 | Difference Over<br>(Under) |
| 8.33%                               | 8,921,577                 | 12,625,385                    | 3,703,808                  |
| 10.00%                              | 10,710,177                | 12,625,385                    | 1,915,208                  |
| 12.50%                              | 13,387,721                | 12,625,385                    | (762,336)                  |

This concludes the analysis of the General Fund, looking at both the past decade as well as forecasting the next five year period. The second section of the report will review the City's Enterprise Funds.

### IRONWOOD GOLF COURSE

In 2009 the City Commission evaluated a number of alternatives for the future of Ironwood Golf Course. Included in those alternatives were:

- Sale of the property
- Third party management
- Converting the property to an alternate use (such as a passive park)
- Continuing to own the property and operating it as a golf course

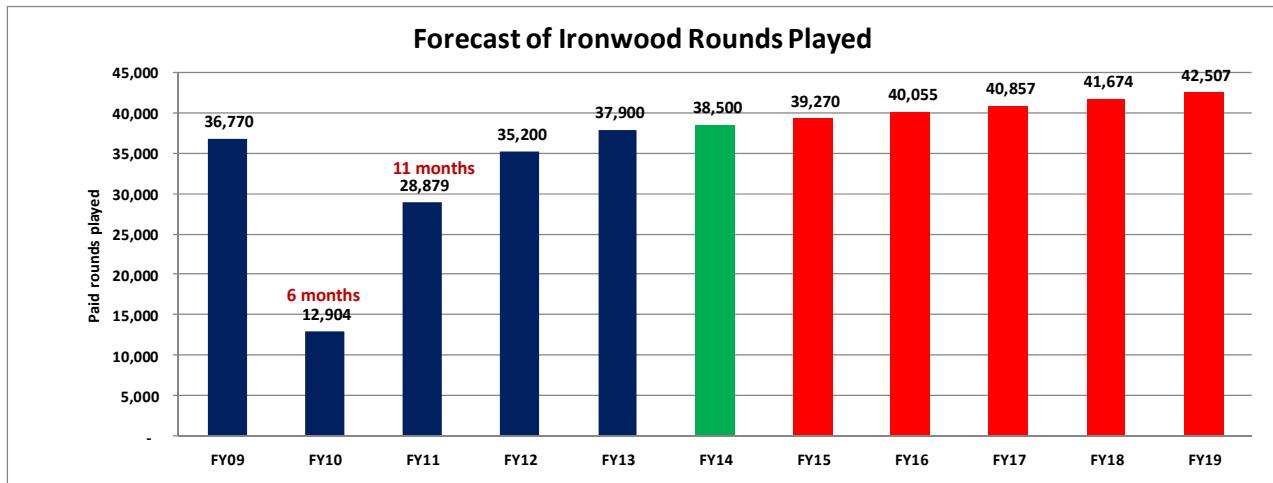

After reviewing the potential options, the Commission determined that it would be in the City's best interest to maintain ownership of the property, continue to operate the property as a golf course and transition the course from an enterprise fund to a program within the Parks, Recreation, and Cultural Affairs Department in the General Fund.

Staff recommended, and the Commission concurred, that if the City intended to continue to operate the property as a golf course, it would be prudent to fund capital improvements designed to upgrade the quality of the course and provide the opportunity to increase the number of rounds played. Projections indicated that the incremental revenue generated from a \$5 surcharge per round associated with the course improvements would be more than sufficient to cover the debt service costs from the course upgrades.

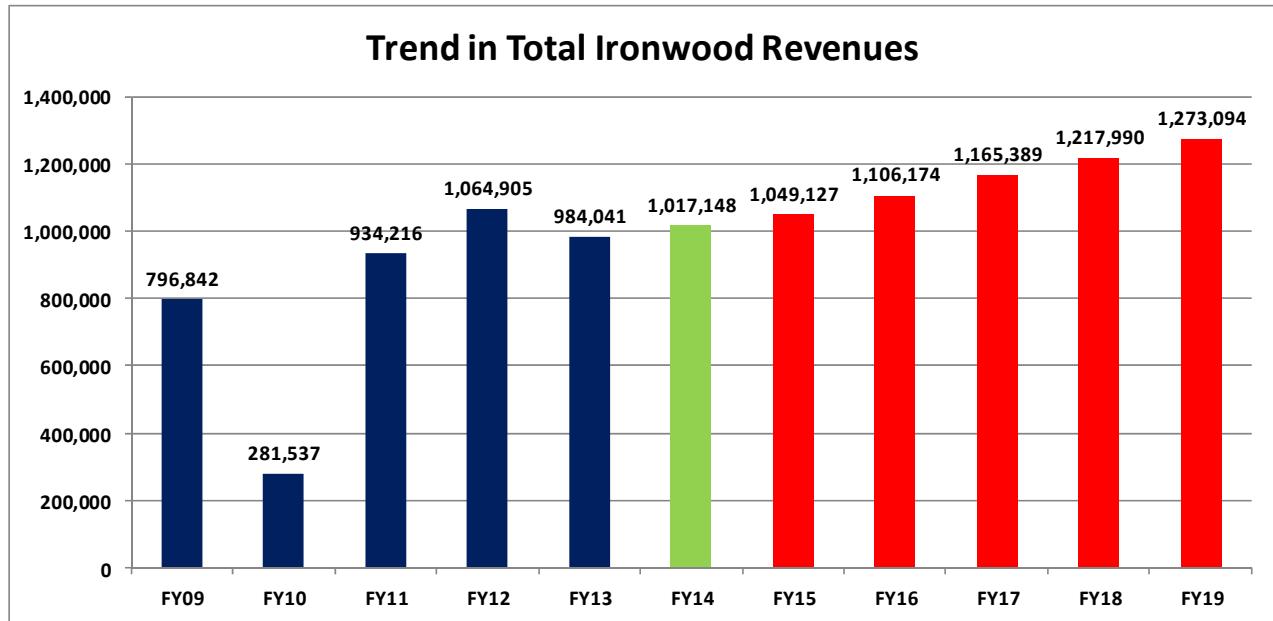

The course was closed from the beginning of April 2010 through October of 2010 while the improvements were completed. For the eleven months of fiscal year 2011 for which the course was open for play (November 2010 through September 2011) 28,879 rounds were played. Rounds played have increased significantly in FY12 and FY13, and surcharge revenues at \$5 per round were more than sufficient to cover the \$95,000 annual cost of the debt issued to fund the course improvements. Rounds played are projected to increase at the rate of 2% per year over the forecast period.

## Five Year Financial Forecast FY15 – FY19

---

Rounds played, which equate to the number of customers coming through Ironwood's doors, are the primary determinant of course revenues. Based on the rounds projection above, following is the estimated revenue projection, net of transfers from the General Fund, over the forecast period:

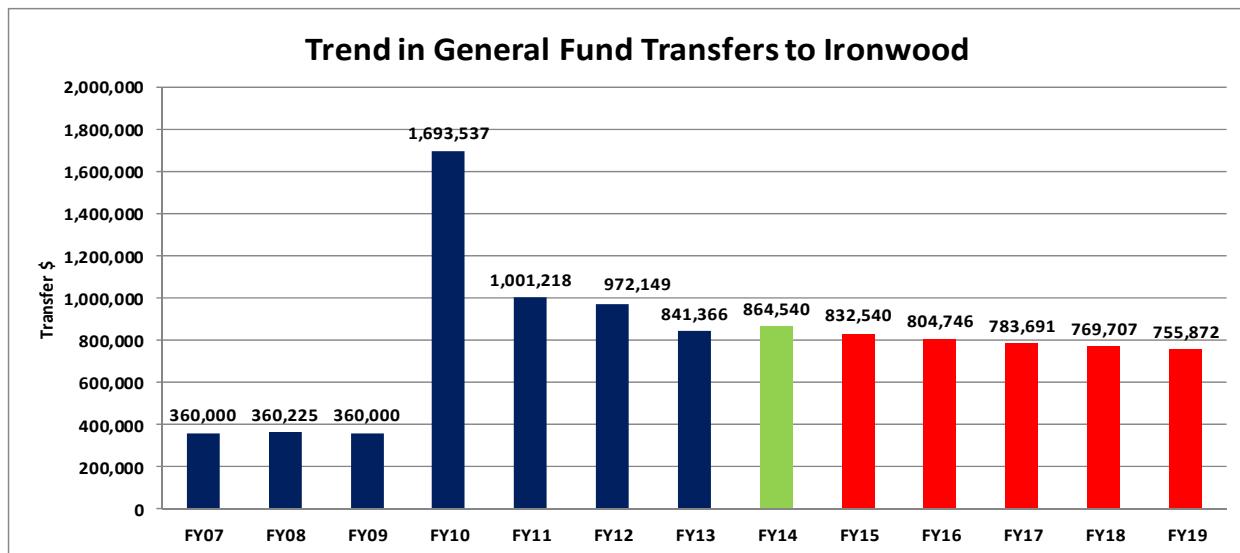

The table below details through the upcoming forecast period the trend in Ironwood's primary revenue sources.

## Five Year Financial Forecast FY15 – FY19

|                          | <b>TREND IN PRIMARY IRONWOOD REVENUE SOURCES</b> |                |                |                |                |
|--------------------------|--|----------------|----------------|----------------|----------------|
|                          | <b>FY15</b>                                      | <b>FY16</b>    | <b>FY17</b>    | <b>FY18</b>    | <b>FY19</b>    |
| <b>Greens fees</b>       | <b>363,660</b>                                   | <b>381,843</b> | <b>400,935</b> | <b>420,982</b> | <b>442,031</b> |
| <b>Cart rentals</b>      | <b>228,712</b>                                   | <b>240,148</b> | <b>252,155</b> | <b>264,763</b> | <b>278,001</b> |
| <b>Concessions</b>       | <b>171,006</b>                                   | <b>179,556</b> | <b>188,534</b> | <b>197,960</b> | <b>207,858</b> |
| <b>Capital surcharge</b> | <b>196,350</b>                                   | <b>200,277</b> | <b>204,283</b> | <b>208,368</b> | <b>212,536</b> |
| <b>Pro shop</b>          | <b>65,962</b>                                    | <b>69,260</b>  | <b>72,723</b>  | <b>76,359</b>  | <b>80,177</b>  |
| <b>Driving range</b>     | <b>48,453</b>                                    | <b>50,876</b>  | <b>53,420</b>  | <b>56,091</b>  | <b>58,895</b>  |

Following through on an initiative contained in the 2009 review of Ironwood, in 2013 staff solicited proposals from management companies for operation and maintenance of the golf course. The purpose was to determine if course operations and finances could be improved through external management. Based on the responses received, as well as the improvements made in course management over the past year, staff recommended and the City Commission approved keeping the course under internal staff management through the Parks, Recreation, and Cultural Affairs Department.

Part of the 2009 City Commission action entailed transitioning Ironwood from an Enterprise Fund into the General Fund over a ten year period between FY10 and FY19. The transition plan required a fundamental change in the manner in which monies were transferred from the General Fund to Ironwood over the course of this transition period. Beginning in FY10, the transfer was altered to cover the Ironwood annual operating loss plus an additional \$300,000 per year to amortize the \$3 million cash deficit which had been generated at the course since its purchase in 1992. Based on this transition plan, the General Fund transfer to Ironwood over the course of the forecast period is projected in the graph below.

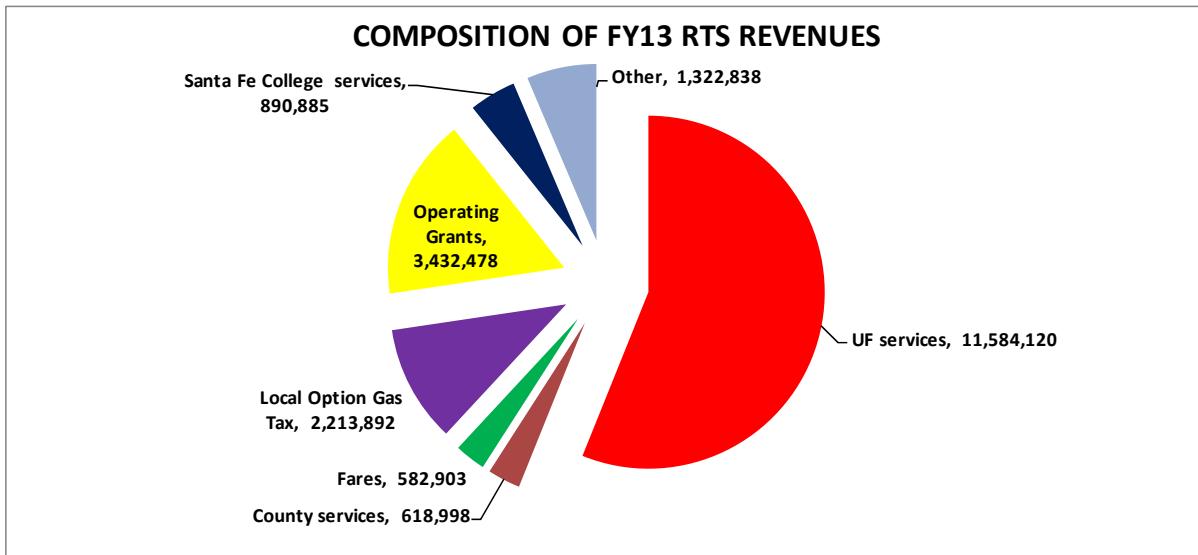

## Five Year Financial Forecast FY15 – FY19

---

### REGIONAL TRANSIT SYSTEM

RTS operations are predominantly centered around the system's relationship with the University of Florida. As the chart below indicates, approximately 56% of FY13 revenues are generated by UF services.

The UF services related revenue in FY13 of \$11,584,120 is broken down as follows:

| COMPOSITION OF UF RELATED RTS REVENUES |                   |
|--|-------------------|
| UF Transportation Fee                  | 7,816,400         |
| UF Campus Contract                     | 2,574,299         |
| UF Later Gator                         | 502,099           |
| UF Sunday Service                      | 321,815           |
| Gator Aider                            | 199,359           |
| UF Employee Passes                     | 112,712           |
| Shands Employee Passes                 | 57,436            |
| <b>Total UF Services</b>               | <b>11,584,120</b> |

The following table depicts recent trends in RTS ridership and operations metrics, as well as projections for these measurements over the forecast period.

## Five Year Financial Forecast FY15 – FY19

---

| RTS OPERATING METRICS |             |             |            |

| 2017                  | 317,680     | 3,674,803   | 11,252,778 |
| 2018                  | 318,680     | 3,686,370   | 11,288,200 |
| 2019                  | 319,680     | 3,697,938   | 11,323,622 |

On the expense side, 50% of RTS operating expense is related to personal services. No new RTS positions are being requested over the forecast period. In 2012, ten operator positions were added to address the fact that overtime costs were rising as a result of personnel turnover and in the short-term this had the desired effect of reducing overtime costs. However, turnover in transit personnel has continued to rise, and there is some concern that overtime costs will resume their upward trend as the overtime is needed to replace unfilled operator slots.

The single largest operating expense for RTS outside of personal services is fuel. The chart below is RTS' management projections regarding fuel usage and fuel cost over the five year forecast period.

| PROJECTED FUEL CONSUMPTION & COST |                  |                  |                  |                  |                  |
|-----------------------------------|------------------|------------------|------------------|------------------|------------------|
|                                   | FY15             | FY16             | FY17             | FY18             | FY19             |
| <b>Revenue hours</b>              | <b>299,394</b>   | <b>305,382</b>   | <b>305,382</b>   | <b>311,490</b>   | <b>311,490</b>   |
| <b>Fuel price (Avg.)</b>          | <b>3.63</b>      | <b>3.70</b>      | <b>3.78</b>      | <b>3.85</b>      | <b>3.93</b>      |
| <b>Consumption in gallons</b>     | <b>1,005,786</b> | <b>1,025,902</b> | <b>1,025,902</b> | <b>1,046,420</b> | <b>1,046,420</b> |
| <b>Fuel Cost</b>                  | <b>3,956,681</b> | <b>4,035,815</b> | <b>4,116,532</b> | <b>4,198,862</b> | <b>4,282,840</b> |

The other significant operating expense change over the forecast period is a projected rise in utilities expense, primarily related to the new maintenance facility. While the facility is more energy efficient than its predecessor, it is almost three times larger than the current facility and will therefore be more expensive to heat and cool on an absolute basis.

Below is the five year operating summary forecast for RTS:

## Five Year Financial Forecast FY15 – FY19

---

| RTS FY15 - FY19 REVENUE FORECAST |                   |                   |                   |                   |                   |

### SOLID WASTE

There are several significant issues that will influence the finances of the Solid Waste Fund over the forecast period.

**Roadway maintenance cost reimbursement** - For a number of years the Solid Waste Fund has transferred \$600,000 (\$300,000 to the General Fund and \$300,000 to the General Capital Projects Fund) to cover the roadway maintenance costs generated by garbage collection vehicles on City streets. This figure had not been adjusted in many years, and the City's Audit, Finance & Legislative Committee directed staff to review whether this reimbursement level is still appropriate. Staff review resulted in a recommendation that this maintenance cost reimbursement be increased by \$1,129,515 annually. Staff's proposal, which was adopted by the City Commission, was to phase in this increase in equal increments of \$376,505 per year over a three year period, such that the full increase would first be incorporated in FY16.

**Airport landfill remediation** - In August of 2006, the State Department of Environmental Protection (DEP) met with Solid Waste personnel to inspect the old airport landfill site which was used off and on by the City from the 1940s through the 1970s at which time it was closed. DEP observed several areas of concern where water runoff had caused the erosion of topsoil used for the landfill cap, and some areas where buried tires were working their way back up through the surface. Based on that visit and the recommendation of the DEP, the City submitted a conceptual plan for remediation of

## Five Year Financial Forecast FY15 – FY19

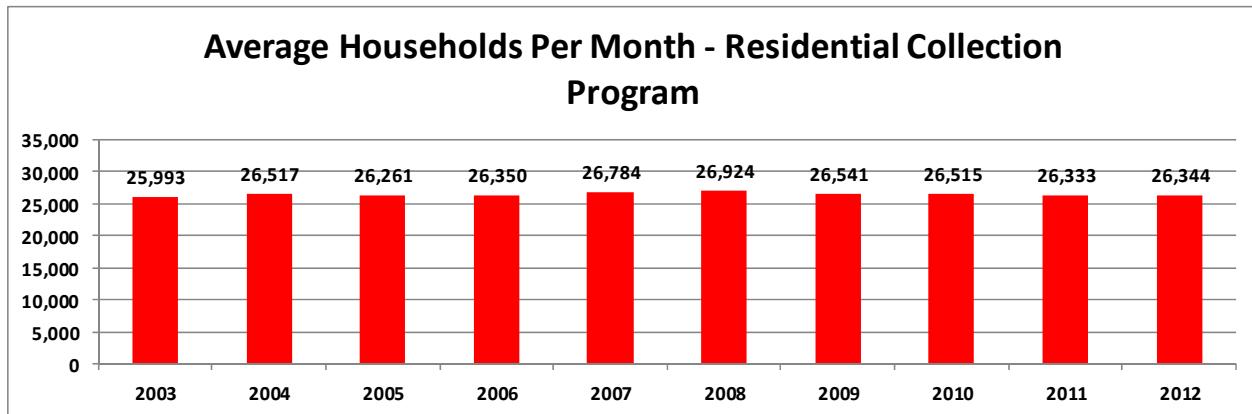

---

the landfill, which DEP approved in 2006. The estimated cost of the remediation is approximately \$2 million.

City staff is currently in discussions with Alachua County regarding shared responsibility for the remediation. It has been proposed that the County front the costs for the operation and be reimbursed by the City for what is ultimately determined to be our share of the cost. The projected timetable for resolution of this issue with the County is February of 2014.

In the event that it is determined that the City is responsible for a major share of the cost of remediation, it may be prudent for the City to consider following the model used for the Slope Stabilization improvements implemented by Solid Waste several years ago. In that instance, long-term bonds were issued to fund project costs that were in excess of a million dollars. Solid Waste rates were increased to cover the debt service costs, which were spread over 20 years. This enabled avoidance of rate spikes to cover the capital costs. In today's low-interest rate environment, this may be a viable method for approaching the airport landfill remediation costs as well.

The following graph details the number of households in the Solid Waste residential collection program over the past ten years.

Solid Waste management staff is estimating a gradual growth in households served of 0.6% per year over the forecast period. Solid waste collection fees are now included in the City's policy of increasing fees by 5% every other year; therefore, rates in this forecast period will increase in FY16 and again in FY18. Franchise fee collections are also projected to increase at 0.6% per year.

On the expense side, an 8% rate adjustment is slated for WCA collection costs in FY15 per provisions of the current contract. The diesel fuel adjustment goes away in FY14, but a CNG adjustment is added, with a net savings projected of \$230,774 per year.

With these issues in mind, following is the five year financial forecast for the Solid Waste Fund. The increase in refuse collection costs in FY15 is due to an 8% rate increase, effective beginning FY15, in the current waste collection contract. The Solid Waste Fund has the fund balance to absorb the operating losses over the forecast period.

### FLORIDA BUILDING CODE ENFORCEMENT FUND

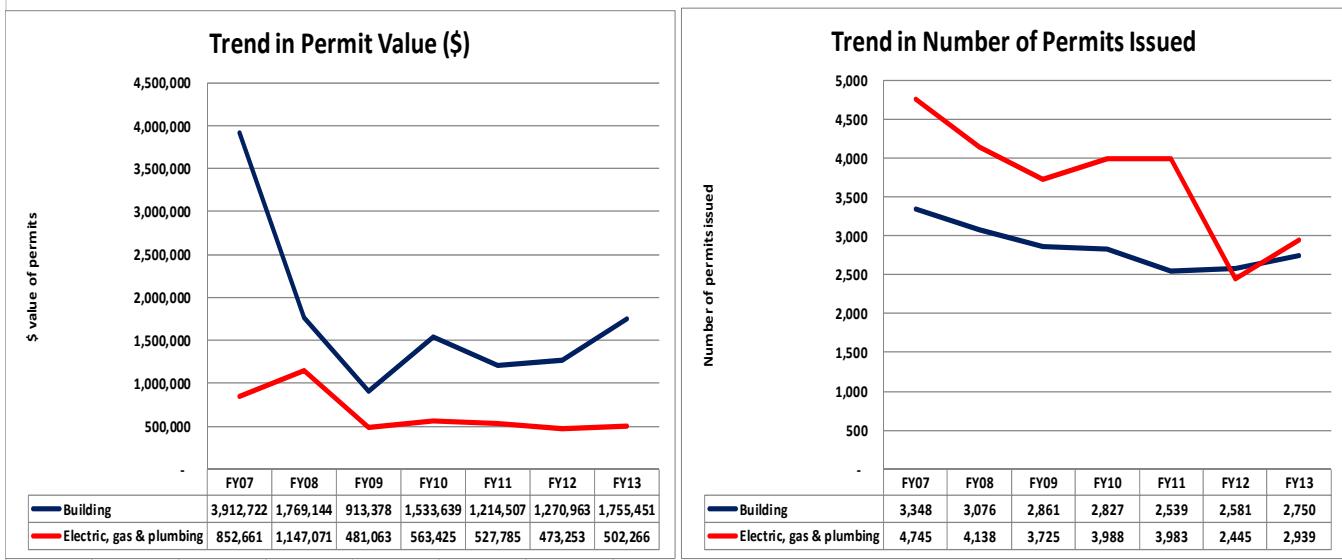

Building Code Enforcement staff is projecting a 15% revenue increase for FY15 and 8% per year increases on average for FY16 through FY19. Nationally, building activity forecasts are trending upward, but this varies widely by geographical area.

Our best local indicators for building permit activity forecasting tend to be land use changes, development applications and First Step meetings. Several major building projects have come in to First Step meetings around the downtown area and CRA districts. Significant commercial and retail development is also being planned in the Butler Plaza area. If all of these projects proceed to building permit applications, the Building Code Enforcement Fund will recognize significant revenue growth throughout the next several years at least. Of course, there may be commensurate increases in fund expense to provide service delivery for these increased levels of activity.

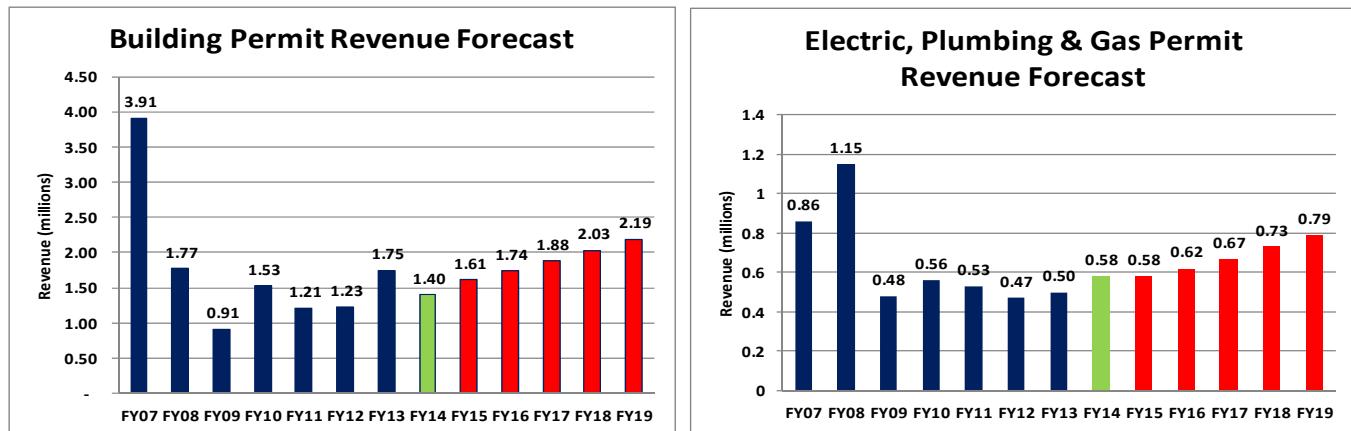

These revenue estimates are tempered to some degree as historically there have been cases where major projects have proceeded through site approval, building permitting or even to commencement of extensive vertical construction before stalling.

A look at permit revenue history clearly demonstrates the effect of the recession on the financial status of the Florida Building Code Enforcement Fund.

## Five Year Financial Forecast FY15 – FY19

The following graph details the projected growth in permit revenues over the forecast period:

The following table outlines the forecast for the Building Code Enforcement Fund.

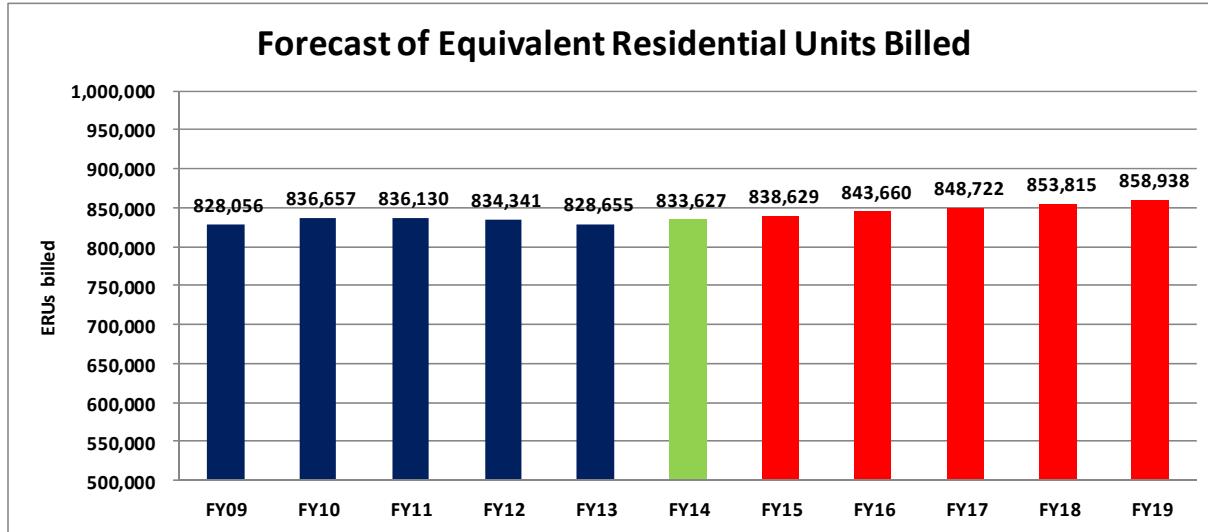

| BUILDING CODE ENFORCEMENT FUND FY15 - FY19 FORECAST |           |           |           |           |           |

## Five Year Financial Forecast FY15 – FY19

---

### STORMWATER MANAGEMENT UTILITY FUND (SMUF)

The objective of the stormwater program is to improve Gainesville's water quality. In order to achieve this, staff performs maintenance of basins and ditches and also maintains the stormwater system. Entities are billed based on their factor of Equivalent Residential Units (ERU). The table below outlines the forecast for ERUs to be billed, based on a modest growth assumption of .6% per year.

Below is the rate history and rate forecast for SMUF. In FY07, the City Commission authorized a five-year 25 cent per year per ERU increase to provide funding for the completion of water quality improvement capital projects. Going forward, the SMUF rates are being incorporated into the City's policy of increasing rates by 5% every other year. Therefore, for the five year forecast period, in FY16 and again in FY18 rates are projected to increase by 5%.

The SMUF fees above do not include the capital portion of the fee. Fund balances are sufficient to handle the operating losses projected for the forecast period.

### DEFINED BENEFIT PENSION PLANS

In response to rising contribution requirements for the City's defined benefit pension plans, during the FY11/FY12 budget hearings in July of 2010, the City Commission directed staff to undertake a review of the plans' benefit structures. Contribution rates had increased for a number of reasons, including:

- Poor investment returns related to the effects of the recession
- Deteriorating ratios of actives to retirees
- Increases in benefit payments

The graphs below detail the trend in some of the metrics associated with the City's defined benefit plans.

Clearly the recession had an adverse impact on the market values and funded ratios of the defined benefit plans. It has taken six years for market values to recover to the previous peaks achieved in FY07,

## Five Year Financial Forecast FY15 – FY19

---

while because of the five year smoothing process utilized in each plan, funded ratios are yet to return to pre-recession levels.

As mortality rates changed, coupled with the ability to meet normal retirement eligibility at 20 years of service regardless of age, plan demographics have worsened. In 1980, the General Plan had almost six actives in the plan for each retiree drawing benefits; today that ratio is less than two to one. Over that same time period the Consolidated Plan ratio dwindled from almost seven actives in the plan to one retiree to 1.25 to one.

The staff review process mentioned above consisted of:

- Commissioning actuarial studies to project future contributions absent benefit modifications
- Determining what modifications were required to limit plan cost increases to sustainable levels
- Collectively bargaining changes with union representatives

The process began in early 2011, with an accord reached with the final union group in late 2013. The table below outlines the cost savings generated over the forecast period.

| DEFINED BENEFIT PENSION PLAN CONTRIBUTIONS |               |            |            |               |           |            |               |            |            |
|--|---------------|------------|------------|---------------|-----------|------------|---------------|------------|------------|
|  | GENERAL PLAN  |            |            | POLICE & FIRE |           |            | TOTAL         |            |            |
|  | After Benefit |            |            | After Benefit |           |            | After Benefit |            |            |
|  | Original Plan | Changes    | Reductions | Original Plan | Changes   | Reductions | Original Plan | Changes    | Reductions |
| FY15                                       | 14,930,828    | 12,886,360 | 2,044,468  | 4,611,013     | 4,205,805 | 405,208    | 19,541,841    | 17,092,165 | 2,449,676  |
| FY16                                       | 15,906,259    | 13,609,450 | 2,296,809  | 4,811,862     | 4,484,148 | 327,714    | 20,718,121    | 18,093,598 | 2,624,523  |
| FY17                                       | 17,042,611    | 14,474,891 | 2,567,720  | 4,953,397     | 4,489,871 | 463,526    | 21,996,008    | 18,964,762 | 3,031,246  |
| FY18                                       | 17,809,527    | 15,018,866 | 2,790,661  | 5,257,341     | 4,664,054 | 593,287    | 23,066,868    | 19,682,920 | 3,383,948  |
| FY19                                       | 18,610,956    | 15,582,487 | 3,028,469  | 5,586,811     | 4,784,239 | 802,572    | 24,197,767    | 20,366,726 | 3,831,041  |

It should be noted that contributions will not decline on an absolute basis going forward, but there is a significant reduction compared to the level of contributions that would have been required absent benefit modification – just over \$15.3 million over the forecast period.

### CONCLUSION

This concludes the FY15 – FY19 forecast. The process provides a long-term estimate of the City's financial health. It was developed by applying the best available information , including:

- Analysis of historical financial trends
- Forecasts, projections and raw data from other agencies, and
- Dialogue with department heads regarding their assessment of their operations for the next five years

Development of a long-term forecast is important to continued fiscal stability. The goals of the forecast are to assess the fiscal sustainability of the City under present conditions, and to identify negative

## Five Year Financial Forecast FY15 – FY19

---

financial trends early enough to allow policy makers the opportunity to make the adjustments required to avoid fiscal distress.

It should be noted that as detailed in the document, this forecast is premised upon a set of underlying assumptions. The outcomes of the forecast are sensitive to variations from the assumptions used to construct the projections, particularly as we move further out into the forecast period.

**Items included in 5 year forecast:**

(1) Due to several re-orgs in the Planning Division, all data have been restated to incorporate the various re-organizations for comparison purposes.

(2) In order to keep pace with a number of potentially large projects, there is an additional half-time Planner and full-time Zoning Technician built into this projection starting in FY17.

(3) The market value reimbursement project has been transferred to the new Innovation and Economic Development department starting in FY13.

Items included in 5 year forecast:

- 1) Starting in FY12, IT General Government merged with Gainesville Regional Utilities. There is a memorandum of understanding between the two entities with set amount for FY12, FY13 and FY17. as set above. There is a clause allowing for automatic extensions for up to three years at a maximum of 4% a year. A 4% increase has been projected for FY15 - FY17.

### **Items included in 5 year forecast:**

- (1) To meet service level demands associated with the increasing number and complexity of grants, Budget & Finance is requesting an additional Grants Program Specialist to begin in FY17.

**Items included in 5 year forecast:**

- The development of National Standards related to new sign requirements requires the department to request an increase of their Traffic Signs & Marking Technicians. An increase of 1.0 FTE is planned in FY17.
- 1) Beginning FY15, increase for the Lambda Fiber Optics Annual Fee for the Tower Agreement (\$8k); increase for replacement of banners every 2 years transfer from CRA (\$9k); median maintenance (\$85k); and LED Streetlight maintenance (\$20k). Beginning FY16, increase for maintenance of banners every year transfer from CRA (\$45k).

**Items included in 5 year forecast:**

- 1) An additional Latent Fingerprint Examiner starting in FY15 has been added to this forecast.
- 2) Additional increases have been appropriated for temporary staff, school crossing guards, overtime and expert witness budgets to more closely align their budgets with previous years' actual costs and projected trends.

**Items included in 5 year forecast:**

- 1) Over the forecast period, there is the potential that there will be several buildings added to the City's inventory list, thus increasing the City's maintenance responsibilities. In order to properly service these additional facilities, an additional electrician and carpenter are reflected in this projection starting in FY17.

**Items included in 5 year forecast:**

- 1) Through the forecast period, PRCA's responsibilities are anticipated to expand in several areas due to capital projects funded by CRA being transferred to operating departments for maintenance and the projects funded by Wild Spaces Public Places will have their maintenance and/or operational costs funded by the department.

**Items included in 5 year forecast:**

- 1) A pay study and the employee opinion survey are included in FY15 & 18.
- 2) Ironwood Golf Course transfer includes: \$300,000 10-year payoff, \$360,000 debt svc (paid off in 2012), indirect cost and any assumed annual losses.
- 3) The Regional Transit System transfer includes the increments initiated during the FY14 budget process.
- 4) The tax increment districts estimates are derived from the State's projections at the December 2013 Ad Valorem Estimating Conference.
- 5) The transfer to general capital projects, facilities replacement and equipment replacement funds and the FY15 debt service are in accordance with 13-17 CIP.
- 6) The transfer to Florida Building Enforcement fund is to cover enterprise zone discounts.
- 7) The transfer to the water/wastewater fund is 50% of Surcharge Connection revenue
- 8) The transfer to Miscellaneous Special revenue funds includes: \$200,000 homelessness initiatives, (\$36k Office for Homelessness & \$154k other homelessness programs), \$38,500 for outside legal counsel and \$90,000 for QTIs.
- 9) The transfer for the OPEB Obligation Bond is paid off in FY 14.
- 10) \$93,000 of debt service is budgeted in General Services for the CIRN of 2009.
- 11) The expense for county streetlights includes increases by GRU electric increase assumptions.
- 12) The elections expense has been increased by \$25,000 for additional early voting sites.

**Items included in 5 year forecast:**

1) The Stormwater Management Utility Fee went into effect on March 01, 1989, per City Ordinance # 3515. The Fee was increased by seventy-five cents to \$4.75/E.R.U. in FY 1993, by twenty-five cents to \$5.00/ERU in FY1996, and twenty-five cents per year between FY1999 and FY2004 to a new rate of \$6.50/ERU. The next rate increase to \$3.95/ERU was approved as part of the FY07 budget process. Twenty cents for operations and twenty-five cents for CIP. The CIP funding strategy includes an annual twenty-five cents increase thereafter until FY11.

2) FY11 was the final year of the five year 25 cent per ERU per month capital charge increase initiated in FY07. FY2012-FY2019 is based on an estimated ERU times the rate.

3) Beginning FY2013, the Capital portion was separated into its own Fund. Fund 414 SMU Capital Surcharge Fund has been set up to help manage the CIP funding strategy.

**Items included in 5 year forecast:**

- (1) **Refuse Collection Fees** - assumptions include a one-time 6% increase for FY15 and FY19 based on approved Collection Renewal contract involving fee reductions and the elimination of fuel surcharges, 0.04% annual growth for FY16, and 0.06% growth for FY17 and FY18.
- (2) **TTF-Gen. Capital Proj Fund** - beginning FY14 the additional \$1,129,515 for pavement management is being phased in over a two-year period - \$376,505 (FY14), \$753,010 (FY15); then \$1,129,515 (FY16), and each subsequent year will be \$1,129,515.
