Lack of capital is the number one reason businesses fail. In this workshop, Mike Chung of the Small Business Development Center @ the University of North FL, an SBA resource provider, demystifies what it takes to get an SBA loan.

Attendees will learn various ways of financing their business, types of SBA loans available, eligibility criteria, the 6C's, SBA Guarantee, debt service coverage, risk management factors that influence a bank's decision, along with best practices and must do's to get financed.

Whether your business is a startup or existing, need \$500 or \$5.5 million, this information will improve the likelihood your banker says "APPROVED"!
