The Magic of the Zero Waste Wizard

Don't know what to do with all your extra empty potion jars, broken staffs, and dusty witches' hats lying around? Simply, visit gainesvillefl.gov/WasteWizard and ask your friendly Zero Waste Wizard to concoct a spell of responsible waste disposal!

The Zero Waste Wizard is the most reliable, up-to-date means for getting locally focused information on recycling, disposal, and reuse. City staff is constantly hitting the books at the School of Wizardry to keep the Zero Waste Wizard current, using information supplied mainly by app users like you.

In addition to answering crucial questions like “Is this recyclable?” a peek into the crystal ball will tell you everything from **where to repair items, donate household goods, or find local scrap metal professionals.**

While we think the Waste Wizard possesses all the answers, this Sorcerer of Sorting is also humble, so if you ask a question that doesn't yet have an answer, **you can suggest the addition of new items to the database of zero waste knowledge.**

When you want to vanquish the dreaded foes of waste, clutter, and junk, the Zero Waste Wizard will cast a spell of all-knowing and all-seeing, giving you the answers you seek. In a world of darkness and uncertainty – “What do I do with all this old stuff?!” – let gainesvillefl.gov/WasteWizard light the way forward!
