

NW 53rd Ave Sidewalk

CITY COMMISSION DISTRICT II

This project added approximately 700 ft of sidewalk along the south side of NW 53rd Ave completing a network gap east of NW 21st St. The project added stormwater management features and upgraded curb ramps to current standards.

The project ties with the City's *Comprehensive Plan* and the City's *Strategic Plan Goal 3: A Great Place to Live and Experience* by expanding the sidewalk network and promoting safety and enhanced accessibility to a diverse population.

This project was funded with proceeds from the City's Transportation Mobility Program Area (TMPA).

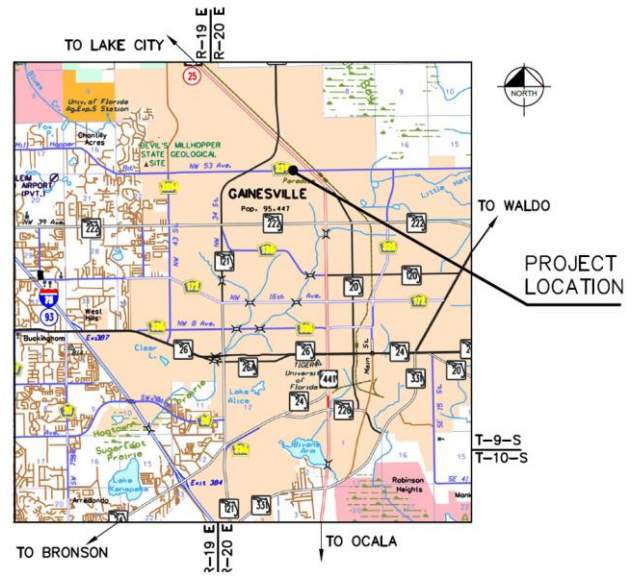

Completion: January 2024

Total Cost: \$359,420

Design by Kimley-Horn and Associates

Construction by Blackwater Construction Services LLC.
